THE BERKELEY GROUP

Berkeley builds homes and neighbourhoods in its core markets of London and the South of England. Its knowledge, expertise and proven track record, with over thirty years of experience in this market, gives it an unrivalled ability to deliver new homes and communities.

Berkeley will continue to forward sell its developments wherever possible, maintaining a strong balance sheet and keeping financial risk low in order to mitigate the operating risks of delivery. It will carefully allocate capital to the right projects at the right time, matching supply to demand wherever it can.

The Berkeley Group is honoured this year to have been awarded the UK's highest accolade for business success – the Queen's Award for Sustainable Development 2014. This is the second time the group has been recognised having previously won the award in 2008, the first housebuilder to have achieved this.

LONG-TERM THINKING AT
THE HEART OF OUR SUCCESS

ROYAL ARSENAL RIVERSIDE (COMPUTER GENERATED IMAGE)

BUSINESS MODEL

The Berkeley Group builds homes and neighbourhoods.

We seek to create beautiful, successful places. These places range in size from a few homes in market towns to complex, mixed-use urban regeneration schemes of over 4,000 homes all built with safety, sustainability and quality at their heart.

Berkeley aims to run the business for long-term success. Its strategy rests on five key principles, with four clear outputs:

STRATEGY

CYCICAL MARKET

We recognise that the property market is inherently cyclical.

UNDERSTANDING RISK

We understand that there are significant operational risks in successfully identifying, designing, building and selling homes and creating new places.

KNOWING OUR MARKET

We operate in London and the South of England, markets that we know and understand. Given the importance of relationships and local knowledge we believe that this gives us a competitive advantage and enables us to deliver new places which are socially, environmentally and economically successful.

SOUND FINANCIALS

We aim to keep financial risk low, by maintaining a strong balance sheet, forward selling new homes where possible and carefully allocating funds to the right projects at the right time.

AUTONOMY

We have recognised brands and autonomous operational teams who carefully manage each individual scheme, regardless of size, to a bespoke design, and embrace Berkeley's core values in their approach.

OUR VISION

"Our Vision" is Berkeley's framework designed to implement this strategy and help all of our people contribute to the success of the business by giving them a clear set of commitments in every area of the business.

This is explained in more detail on pages 27 to 37 of the Strategic Report.

OUTPUTS

SHAREHOLDERS

We have a clear plan to return £13 per share (over £1.7 billion) by 2021 and to retain a successful, sustainable business thereafter. Our 2014 Performance Highlights opposite show that we are on track to achieve this.

SOCIETY

We are building new homes to help the country meet the housing shortfall and creating places characterised by the quality of their design, public realm, transport and access to jobs and amenities.

PEOPLE

Our approach creates jobs in our offices, on our developments and in our supply chain, some 4.5 for every new home built. We have engaged a loyal and dedicated workforce within Berkeley.

PLACES

We aim to deliver sustainable communities which endure long after our work is complete, and our engagement with local people through the Berkeley Foundation supports this.

2014 PERFORMANCE HIGHLIGHTS

Berkeley has committed to return £13 per share to shareholders by September 2021. 164 pence per share (£215 million) has already been paid, a further 90 pence per share (£122 million) has been declared for payment in September 2014, leaving 180 pence per share (£243 million) to return by the first milestone of 434 pence by September 2015.

LONG-TERM STRATEGY
To return
£1.7 billion
in cash to shareholders

Commenting on the results, Chairman Tony Pidgley said:

"These are strong results which reflect the current market conditions and Berkeley's bold strategy to invest at the right point in the economic and housing cycle. Basic earnings per share have grown by 38.6% to 221.8 pence, of which 149 pence has been paid to shareholders as dividends in the year, and the estimated value of gross margin in our land holdings is now in excess of £3 billion."

The Board has declared a further interim dividend of 90 pence per share (£122 million), payable on 26 September 2014 to shareholders on the register on 22 August 2014. This means that 254 pence per share has been paid or committed to date, and leaves a further 180 pence per share in order to meet the first milestone of paying 434 pence per share by September 2015. The Board considers that the Group is currently on track to achieve this target and is well positioned to meet the remaining milestones by September 2021.

The last year has seen a surge of confidence within the UK economy. Housebuilders have been at the forefront of the return to growth, creating a feelgood factor which benefits everyone.

Their investment has underpinned the delivery of affordable homes and infrastructure for our communities. This is a result of a stable economic and political environment and strong inward investment. London in particular competes on a global stage and the strength of the market here is vitally important for maintaining momentum in the wider domestic market.

Looking to the future the housebuilding industry, supported by the stimulus of the Help to Buy scheme, has the capacity to increase further the supply of new homes across the country.

Forward sales are critical to enable the industry to commit the significant capital necessary to do this. Berkeley is building on all of its sites that have an implementable planning consent and we are employing over 11,000 people directly on our sites sustaining a further 10,000 jobs indirectly in the supply chain. This year we have completed some 30% more homes than at the peak of the market in 2007, and I am proud of the role Berkeley has played in generating economic growth and its wider contribution to our society through the homes and places we create.

Berkeley's achievements are testament to the skill and dedication of our employees, and to the commitment of our partners on our schemes and in the supply chain, and I would like to express my thanks to all of them. I am delighted that the Group has been recently awarded the Queen's Award for Enterprise for Sustainable Development 2014. This award recognises Berkeley's approach to running its business for the long-term, to help ensure a better quality of life for everyone, now and for generations to come.

The Board is confident that Berkeley has the right plan to deliver long-term sustainable success, but remains alert to the inherently cyclical nature of the property market and the uncertainty surrounding future tax policy and political decision-making. Monetary policy and the financial stability of banks, which is currently a concern of regulators, are both factors influencing the housing market in the long-term. Provided any future increases in interest rates or regulation of mortgages are matched with future wages growth as the economy expands, the prospects for the housing market remain positive."

MANAGING DIRECTOR'S STATEMENT

ROB PERRINS MANAGING DIRECTOR

PERFORMANCE

in the year

OUTLOOK

Estimated gross margin in

£3,014 million
at year end

Commenting on the results, Managing Director Rob Perrins said:

"Berkeley has built and sold 3,742 new homes this year at an average selling price of £423,000, driving a 40.4% increase in pre-tax profits to £380.0 million and a rise in pre-tax return on equity from 22.4% to 27.5%."

The Group remained ungeared throughout the year, with net cash rising from £44.7 million to £129.2 million after paying £19.5 million of dividends to shareholders and investing further in new land and construction. This investment and a favourable market have enabled us to build and sell over 15,000 new homes in London and the South of England over the last five years, during which period we have delivered some 10% of both the total private and affordable homes built in London.

Berkeley's vision is to be a world-class business generating long-term value by creating successful, sustainable places where people aspire to live. These results are due to a unique combination of an entrepreneurial approach to land buying, a track record of working in partnership with local authorities to create great places, strong financial discipline, autonomous management teams and above all a passion for proving how good new housing can be.

With cash due on forward sales now approaching £2.3 billion and estimated gross margin in its land holdings now in excess of £3 billion, the Board has visibility over its commitment to meet the remaining 180 pence of the first milestone through regular dividends. The land and planning now in place has extended this visibility to delivery of the second milestone payment of 433 pence by September 2018 and Berkeley has made substantial inroads into the planning requirement on the land required to cover the third milestone payment of a further 433 pence by September 2021.

Looking forwards, we continue to see opportunities to acquire land that meet our hurdle returns. This will typically be characterised by long-term and complex development sites to which Berkeley can bring its expertise. The land already in our pipeline comprises a number of sites that match these criteria and the ongoing operational focus is to deliver this over the next five years. If this is achieved, it has the potential to enhance the existing gross margin in the land bank by some £1.5 billion and help build a sustainable business.

Berkeley has finished the year well, delivering a strong cash flow performance, growing its unrivalled land holdings through acquisition and optimisation, continuing to invest in inventory and securing additional forward sales. This gives the Board the confidence to continue to invest and add value whilst never underestimating the risks inherent in a cyclical market.

Over the remainder of the current plan, the Board aims to deliver the targeted dividends from earnings while maintaining the balance sheet at least at its current level and the value in its land holdings above £3 billion."

WHAT WE DO: 1: IDENTIFYING AND ACQUIRING LAND

Berkeley has invested over £1.5 billion in new land since 2009 when it set out a clear strategy to acquire land at the right point in the cycle.

EXPERIENCE

Experienced land teams across the business understand the Group's focus on investing selectively in the right locations in our core markets of London and the South of England where there is underlying demand for new homes, good transport links and the scope to create successful new places.

POTENTIAL

The Group thrives on taking on complex, challenging, brownfield land which others shy away from, but only where there are the right commercial fundamentals, the potential to add value and where we have the vision to create something special through the development process.

CAREFUL APPRAISAL

We undertake a rigorous internal appraisal process to assess the opportunities and risks of potential acquisitions and deliver pre-authorisation at Board level of all land offers and again prior to exchange of contracts.

AN ENTREPRENEURIAL APPROACH

An entrepreneurial approach, our financial strength and a flat management structure enable Berkeley to reach purchase decisions quickly and decisively, which gives confidence that we will deliver on these decisions. We understand the varying requirements of vendors and landowners, whilst also considering innovative approaches to accessing new land such as joint ventures as in the case of St Edward, a partnership with Prudential.

WHAT WE DO: 2: DESIGNING AND PLANNING NEW HOMES AND PLACES

Our business is about placemaking, not just housebuilding.

We aim to create places characterised by the quality of their design, public realm, transport links and access to jobs and amenities.

CONSULTATION

We use professional architects and leading consultants and engineers to design every new scheme individually, whether it consists of four or four thousand new homes, in consultation with local communities, and strive to deliver schemes which are of high quality, sensitive to their heritage and surroundings and meet the aspirations of our customers and local and national stakeholders.

SOCIAL AND ENVIRONMENTAL SUSTAINABILITY

We have addressed the challenge of understanding what makes a successful place by implementing a framework to promote quality of life and strength of community, which we now apply to our schemes. We have led the way in delivering environmentally sustainable living on large-scale developments.

PARTNERSHIPS

We engage closely with our partners in the local authorities and communities surrounding each of our sites to understand stakeholders' needs, reflecting these in our designs, and want to cement our reputation for quality and for delivering on our promises.

PLACEMAKING

We aim to create places characterised by the quality of design, public realm, transport and access to jobs and amenities.

WHAT WE DO: 3: BUILDING NEW HOMES AND PLACES

Berkeley is currently building on every one of its schemes that has an implementable planning consent.

INTENSIVE MANAGEMENT

Each of our developments is led by a dedicated project team responsible for all aspects of detailed design, quality, delivery, health and safety, commercial and technical works on their project.

The coordination of professional teams of consultants and subcontractors and strong communication throughout are critical in ensuring the smooth delivery of every project.

HEALTH AND SAFETY

Berkeley's approach prioritises the health, safety and wellbeing of our people and our subcontractor teams on site with dedicated Health and Safety managers overseeing all of our developments.

CONSIDERATE CONSTRUCTION

Our reputation relies on all of our project teams engaging with surrounding communities, being a responsible and considerate neighbour, and working with our suppliers and contractors to complete our schemes on time and budget.

BUILDING

Berkeley is currently building on every one of its 65 schemes that has an implementable planning consent.

WHAT WE DO: 4: MARKETING AND SELLING HOMES

Whether first-time buyers, families, experienced investors, retailers, our partners in housing associations or providers of student accommodation, Berkeley strives to ensure that its customers receive an unparalleled service when buying from Berkeley.

CUSTOMER FOCUS

Sales teams across the business help our customers find the right home to suit their needs and have the knowledge and understanding to explain the intricacies of every development.

ASPIRATIONAL HOMES

We aim to forward sell our homes where possible to ensure that what we are building reflects the demand from our customers and we have the flexibility to evolve our product to meet their aspirations.

Berkeley strives to ensure that its customers receive an unparalleled service when buying from Berkeley.

WHAT WE DO: 5: CUSTOMER SERVICE AND STEWARDSHIP

Customer satisfaction is the crucial measure of whether our homes and our service meet the aspirations of our customers.

CUSTOMER JOURNEY

Dedicated Customer Relationship Managers look after every stage of the customer journey and provide a level of care and service after completion which we expect to match the quality of our product across all of our schemes.

ESTATE MANAGEMENT

Successful places need the right long-term management strategy and we work closely with appointed managing agents to set the right tone for our schemes long after they have been completed.

CUSTOMER JOURNEY

Dedicated Customer Managers look after every stage of the customer journey across all of our schemes.

WHERE WE OPERATE

"We operate in London and the South of England, markets that we know and understand. Given the importance of relationships and local knowledge, we believe that this gives us a competitive advantage to enable us to deliver new places which are socially, environmentally and economically successful."

HOW WE OPERATE: MANAGING RISK

"There are significant operational risks in successfully identifying, designing, building and selling new homes and creating new places. To provide the best platform for the business to meet these challenges, we aim to keep financial risk low, by maintaining a strong balance sheet, forward selling new homes where possible and carefully allocating funds to the right projects at the right time."

"Berkeley's approach allows management to focus on taking the right decisions to deliver long-term success, and retain the flexibility to take advantage of any opportunities which arise in the short and medium term."

OPERATING RISK

Risk management is embedded in the organisation at operating company, divisional and Group levels, with different types of risk requiring different levels and types of management response.

Berkeley's framework for internal control, the context for the identification, control and monitoring of risks faced by the Group, is set out within the Corporate Governance Report on page 52.

The principal operating risks and our approach to mitigating them are described in more detail on pages 22 and 23. The principal operating risks faced by the Group include:

ECONOMIC CONDITIONS

REGULATION

PLANNING PROCESS

RETAINING PEOPLE

SECURING SALES

MORTGAGE AVAILABILITY

ENVIRONMENTAL AND SOCIAL SUSTAINABILITY

HEALTH AND SAFETY

LAND AVAILABILITY

BUILD COST AND PROGRAMME

PRODUCT QUALITY

FINANCIAL RISK

In light of these operating risks, Berkeley aims to keep financial risk low, and finances its operations through shareholder equity and has significant undrawn facilities available. The Group's operations are in sterling, and so there is no significant direct currency risk. Its main financial risks are primarily:

LIQUIDITY RISK

The risk that suitable funding for the Group's activities may not be available to it.

MARKET CREDIT RISK

The risk that counterparties (mainly customers) will default on their contractual obligations resulting in a loss to the Group. The Group's exposure to credit risk is comprised of cash and cash equivalents and trade and other receivables.

MARKET INTEREST RATE RISK

The risk that Group financing activities are affected by fluctuations in market interest rates.

The Board approves treasury policy and senior management control day-to-day operations. Relationships with banks and cash management are co-ordinated centrally.

The treasury policy is intended to maintain an appropriate capital structure to manage the financial risks identified and provide the right platform for the business to manage its operating risks.

Winter Garden at Goodman's Fields

HOW WE OPERATE: MANAGING RISK continued

RISK DESCRIPTION	MITIGATION
ECONOMIC CONDITIONS	<p>Berkeley's business strategy reflects the cyclical nature of property development. Funds are carefully targeted at investing only in land which is underpinned by demand fundamentals that support a solid viability case even when markets are uncertain.</p> <p>Levels of committed expenditure are carefully monitored against forward sales secured and bank facilities available, with the objective of keeping financial risk low to mitigate the operating risks of delivery in uncertain markets.</p> <p>The business is committed to operating at an optimal size, with a strong balance sheet, to maintain the flexibility to react swiftly, when necessary, to changes in market conditions.</p>
REGULATION	<p>The effects of changes to Government policies at all levels are closely monitored and representations made where appropriate.</p> <p>Berkeley's experienced teams are well placed to interpret and implement new regulation at the appropriate time through direct lines of communication across the Group. Detailed policies and procedures are in place and these are communicated to all staff.</p>
PLANNING PROCESS	<p>Full detailed planning and risk assessments are performed and monitored for each site without planning permission, both before and after purchase.</p> <p>The planning status of all sites is reviewed at monthly divisional Board meetings and Main Board meetings.</p> <p>The Group works closely with local communities in respect of planning proposals and strong local relationships are maintained with local authorities and planning officers.</p> <p>The Group is focused on the markets of London and the South of England in a planning environment which it understands and where it believes it therefore has a competitive advantage.</p>
RETAINING PEOPLE	<p>Remuneration packages are constantly benchmarked against the industry to ensure they remain competitive.</p> <p>Succession planning is regularly reviewed at both divisional and Main Board level.</p> <p>Close relationships and dialogue are maintained with key personnel.</p>
SECURING SALES	<p>Detailed market demand assessments of each site are undertaken before acquisition, and regularly during delivery of each scheme, to ensure that supply is matched to demand in each location.</p> <p>Design, product type and product quality are all assessed on a site-by-site basis to ensure that they meet the target market and customer aspirations in that location.</p> <p>The Group has a diverse range of developments with homes available at a broad range of property prices to appeal to a wide market. Forward sales are used to take the risk out of the development cycle where possible, thereby justifying the financial investment in each of the Group's sites.</p> <p>Completed stock levels are reviewed and debated at monthly divisional Board meetings and quarterly Main Board meetings.</p>
MORTGAGE AVAILABILITY	<p>Berkeley has a broad product mix and customer base which reduces the reliance on mortgage availability across its portfolio.</p> <p>The Group is participating in the Government backed mortgage indemnity scheme, NewBuy, on a number of its schemes and on the Government's new Help to Buy scheme.</p> <p>Deposits are taken on all sales to mitigate the financial impact on the Group in the event that sales do not complete due to a lack of mortgage availability.</p>

RISK DESCRIPTION	MITIGATION
ENVIRONMENTAL AND SOCIAL SUSTAINABILITY	<p>Berkeley is hugely aware of the environmental and social impact of the homes and communities that it builds, both during the construction phase and on occupation by its customers.</p> <p>Failure to address sustainability issues could affect the Group's ability to acquire land, gain planning permission, manage sites effectively and respond to increasing customer demand for sustainable homes.</p>
HEALTH AND SAFETY	<p>The Board has the responsibility of setting the Group's Health and Safety strategy. Dedicated Health and Safety teams are in place in each division and at Head Office. Procedures, training and reporting are all regularly reviewed to ensure high standards are maintained, and comprehensive accident investigation procedures are in place.</p> <p>The Group has implemented a number of initiatives to improve Health and Safety standards on site, with workshops held with contractors during the year.</p> <p>Our Vision incorporates commitments in the area of Health and Safety which reinforce the Group's focus on this. Adequate insurance is held to cover the risks inherent in large-scale construction projects.</p>
LAND AVAILABILITY	<p>Berkeley's strategy is to acquire land opportunistically, where it meets its internal criteria for purchase.</p> <p>Land acquisition is focused on Berkeley's core markets of London and the South of England, markets which it understands and where it believes that the demand fundamentals are strong and hence it stands the best chance of securing viable planning consent.</p> <p>Each land acquisition is subject to formal internal appraisal and approval processes both prior to the submission of a bid and again prior to exchange of contracts to give the Group the best chance to secure targeted land.</p> <p>The Group maintains its land holdings to mitigate against significant impacts from market changes or delayed build activity. Berkeley has experienced land teams with strong market knowledge in its areas of focus.</p> <p>The Group keeps financial risk low and maintains the liquidity to enable it to remain competitive when it bids for new land.</p>
BUILD COST AND PROGRAMME	<p>A procurement and programming strategy for each development is agreed by the divisional Board before site acquisition.</p> <p>A further assessment of procurement and programming is undertaken and agreed by the divisional Board prior to the commencement of construction.</p> <p>Build cost reconciliations and build programme dates are presented and reviewed in detail at divisional cost review meetings each month.</p>
PRODUCT QUALITY	<p>Detailed reviews are undertaken of the product on each scheme both during the acquisition of the site and throughout the build process to ensure that the quality of the product is maintained.</p> <p>Customer Satisfaction surveys are undertaken on the handover of all private apartments, and feedback incorporated in shaping the specification and quality of subsequent schemes.</p> <p>The Group monitors its development obligations and recognises any associated liabilities which arise.</p>

CASE STUDY – THE ‘BERKELEY DIFFERENCE’ AT:

GOODMAN’S FIELDS, ALDGATE

“Our vision for Goodman’s Fields is to create a new modern urban quarter for the City of London, with innovative architecture which is sensitive to the history of the area and the amenities that will make this a great place to live.”

1,400

DEVELOPMENT TYPES

Private, affordable and student homes, hotel, shops, restaurants and offices

LENGTH OF SCHEME

REINTEGRATION

On buying the land in 2010 with planning consent, Berkeley chose to completely redesign the scheme with a focus on opening up the site by developing a series of serene open spaces for the community to enjoy and so reintroducing a lost quarter of the City.

PUBLIC REALM

An experienced team of planners and landscape architects, and a development plan to service homes, shops and restaurants from underground, has created high quality open spaces on over two acres of the seven-acre scheme, which beautify and complement the make-up of the site.

A competition of over 40 artists secured the commission for a series of sculptures to really bring the place to life. The winning artist chose horses as his subject matter to serve as a visual reminder of the leading role that horses have played in London’s rich history.

HOW WE OPERATE: OUR VISION

"We have recognised brands and autonomous operational teams who carefully manage each individual scheme, regardless of size, to a bespoke design, and embrace Berkeley's core values in their approach.

"Our Vision" is Berkeley's framework designed to help all of our people contribute to the success of the business by giving them a clear set of commitments in every area of the business."

OUR VISION

To be a world class business generating long-term value by creating successful, sustainable places where people aspire to live.

OUR PEOPLE

Develop a highly skilled workforce who run autonomous businesses, operate in a safe and supportive working environment, and contribute to wider society.

For Berkeley to achieve long-term success, the skills, commitment and approach of our people throughout the business are crucial. Berkeley needs to ensure that everyone has the right tools to enable them to work towards a common set of goals.

This year we have developed and evolved our business framework, "Our Vision" (previously Vision2020). Our Vision sets out our company values and provides an operational framework with five key focus areas and a series of clear strategic commitments to help empower our people and give them clear direction across every discipline of the business.

Berkeley's culture informs the way we work, the way we lead the business, and what we deliver to our customers. This year we have reviewed and tested our values and defined the behaviours that bring them alive. These help explain to both new and existing employees what Berkeley expects of them and what they can expect of Berkeley.

In May 2014 we launched a new set of stretching commitments to achieve by April 2016. These were determined based on input from an external stakeholder panel and issues review, together with

consultation with each of our autonomous companies and specialist committees.

We expand on each of the five focus areas of Our Vision over the next few pages.

HOW WE OPERATE: OUR VISION continued

CUSTOMERS

Provide exceptional service to all of our customers and put them at the heart of our decisions.

OUR APPROACH

Our customers are at the heart of all our decisions. We aim to understand their needs and consistently meet or exceed their expectations. The service we provide is professional, efficient and helpful to make the home buying process as straightforward and enjoyable as possible. Our levels of customer service aim to be comparable to other top brands. All our customers are provided with a commitment that when they buy a new home from Berkeley they can be safe in the knowledge that it is built to very high standards of design and quality, has low environmental impact and that they will enjoy an exceptional customer experience. Each customer receives tailored information relating to their purchase and has a dedicated point of contact throughout the customer journey.

OUR HEADLINE COMMITMENTS FOR 2014 – 2016

We have set three stretching commitments in the area of Customers to further improve our approach:

- Deliver world-class customer service measured through the Net Promoter Score
- Launch an interactive way of communicating with our customers, 'My Home Plus'
- Market all our developments in the UK first

OUR PROGRESS IN 2012 – 2014**COMMITMENT**

Provide every customer with a Berkeley Customer Satisfaction Commitment

PROGRESS

✓

Provide user-friendly 'quick start' instructions and guides for running a home

✓

Survey every customer to measure satisfaction and target that at least 95% of our customers would recommend us to a friend

✓

Train sales staff in sustainability so that they are able to sell the benefits to customers

✓

Produce a Berkeley Sustainable Living Guide in conjunction with NGOs for use in sales & marketing suites, at handover, as well as an interactive version of the Guide for our website

**INSTITUTE OF CUSTOMER SERVICE**

The Group joined the Institute of Customer Service (ICS) during 2014 to further improve service and to enable benchmarking of performance. A survey of our employees and some recent customers was undertaken, with Berkeley performing above the benchmark set by ICS and achieving its highest score for friendliness of staff. Several of our businesses have since implemented accredited ICS training focusing on customer service for all employees. To date around 105 training courses have been delivered covering more than 500 staff and extending beyond just customer-facing employees. We are delighted that our St James business became the first housebuilder to achieve ServiceMark accreditation.

TRAINING

An intensive 'Let's Talk Sales' training programme took place for all sales staff in summer 2013 and a number of online training modules were also launched. Along with training of existing employees, we have also run our second Sales Academy. This aims to bring talented individuals from other industries into the business and provides them with a structured training programme before they are placed in a role.

UK FIRST

This year we have opened new overseas sales offices in Beijing and Dubai. Whilst overseas customers are important, bringing inward investment into the UK, we recognise that UK purchasers should have the opportunity to buy our homes. In August 2013, ahead of the Mayoral Concordat, we made a pledge to offer all developments in the UK before marketing overseas.

CUSTOMER SURVEYS

We use customer satisfaction surveys undertaken by an independent external agency to measure how well we are meeting our customers' expectations. All of our private purchasers are asked to complete a survey, and this year 98% of our customers reported that they would recommend Berkeley to a friend (2013: 98%). We will begin to use the Net Promoter Score (NPS) as an indicator of customer satisfaction and will publish this in future years to benchmark ourselves out of sector against world-class companies.

SUSTAINABLE LIVING

We have a role to play in promoting sustainable lifestyles to residents and helping them to operate their home efficiently and make the best use of local facilities. We also believe that this is something our customers want; in our 2014 Customer Sustainability Survey it was highlighted that energy efficiency, running costs and open spaces are important factors when customers are buying their new home. All developments now have a 'Helping Create a Better Future: Our Guide to More Sustainable Living' brochure which includes an insert showing site-specific sustainability features. An interactive version of the brochure is available online to show what we incorporate into our developments and suggest ways that customers can live more sustainably.

HOMES

Develop individually designed, high quality homes with low environmental impact.

OUR APPROACH

Each of our homes and developments is bespoke and we use qualified architects to design each scheme. Attention to detail in design is paramount to ensure homes meet the needs of our customers and our specifications are planned to meet the varied needs of all types of homebuyers, from luxurious houses to key worker apartments. The impact on the environment throughout the lifetime of the home is considered during its design with an aim to minimise impacts and provide home owners with the opportunity to live more sustainably. The high quality finish which we demand in our new homes requires a skilled workforce and thorough checks before handover.

OUR HEADLINE COMMITMENTS FOR 2014 – 2016

We have set three stretching commitments in the area of Homes to continue to improve our approach:

- Enable fibre broadband on all our new homes and provide community Wi-Fi
- Guarantee space standards for all new homes
- Launch a new R&D programme to utilise customer feedback and drive innovation through improved design

BESPOKE DESIGN

There is no generic Berkeley scheme. Every design is bespoke and we use architects on every project, something which is uncommon within the industry. Our designers range from world-famous architects like Foster + Partners working on The Corniche on Albert Embankment, to smaller practices like BHP Harwood producing an intelligent design to restore a magnificent Grade II listed building at St Joseph's Gate in Mill Hill. We continue to promote good urban design across the industry through sponsorship of the London Festival of Architecture.

PRE-PLANNING

The design of each project is scrutinised intensely at all stages. We have regular project design meetings to review the specification involving each relevant team at every level of the business. We use focus groups to influence future schemes by asking potential residents about the design features and level of specification they would require. Whilst the key measure of successful design is satisfied customers, we are proud to have been awarded a

number of design awards to corroborate our approach. The five storey, five bedroom home at Lime Grove Mews won the coveted Grand Prix Award and the Best Family Home Award in the London Evening Standard's 2013 Awards for its thoughtful design and flexible interiors.

ATTENTION TO DETAIL

The quality which we demand in our new homes requires a skilled workforce and attention to detail. We use our marketing suites as the benchmark for build quality and finish in each individual home. Every area is thoroughly checked before handover to ensure that high standards are maintained. Electronic systems to manage post-handover maintenance have been introduced in areas of the business to assist with this process to ensure good record keeping and timely close-out. We have also undertaken studies of occupied homes to investigate aspects such as air quality with specialist monitoring equipment and air leakage through thermal imaging.

ENVIRONMENTAL PERFORMANCE
In the last twelve months, more stringent building regulations for energy have been introduced, but we are awaiting the implementation of significant changes arising from the Government's Housing Standards Review. The Group provided a response to the consultation in autumn 2013 supporting the intention to simplify the large and complex range of local and national standards, rules and codes that housebuilders face. On a site-by-site basis, we continue to reach high environmental standards. For example, some of the deepest ground source heat pump boreholes in London will provide up to 60% of the heating demand at Riverlight in Nine Elms.

HOW WE OPERATE: OUR VISION continued

PLACES

Create great places where people enjoy a good quality of life, now and in the future.

OUR APPROACH

We create well-designed, high quality, safe and sustainable places which will endure as settled, vibrant communities long into the future. These are places where people choose to live, work and spend their time, that directly encourage people's wellbeing and quality of life, and offer them a space and a base from which to lead safe and fulfilling lives. Through our ability both to collaborate and to deliver, we aim to be the developer of choice for local authorities and existing communities. We believe that appreciating the needs of our customers and wider stakeholders before, during and after the delivery of our schemes and what makes them thrive as a community, is the right model for a truly successful and sustainable business in our sector.

OUR HEADLINE COMMITMENTS FOR 2014 – 2016

We have set three stretching commitments in the area of Places to continue to improve our approach:

- Measure and increase people's quality of life by applying a framework for social sustainability
- Adapt all developments to climate change through measures on flooding, overheating and water shortage
- Test new forms of estate management and community governance

SOCIAL SUSTAINABILITY

During 2014 we have further developed and launched our framework for creating successful places. This sets out a structured approach to placemaking and applying the main ideas behind social sustainability to new housing and mixed-use developments. The criteria reflect issues which are important to people and communities, such as links with neighbours, access to transport, feelings of safety, positive local identity and the ability to influence what goes on. The framework is now used in the design of all our new schemes, and those of 100 homes or more conduct formal workshops to debate and prioritise the key issues. Results from residents at our longer-term developments have been positive; at Woodberry Park 90% feel satisfied with their life overall (compared to 60% nationally) and at Royal Arsenal Riverside 84% plan to remain in the neighbourhood (compared to 68% nationally). We are proud to have won 'Property Company of the Year – Residential' at the Estates Gazette Awards 2013.

PARTNERSHIPS

We have a commitment to genuine partnership working. Partnership arrangements need to be tailored to suit each project, skillfully co-ordinating the investment and ambitions of Berkeley, the local authority, residents, Registered Social Landlords and other stakeholders. We listen to what local people and other partners want and incorporate this into the design wherever possible.

COMMUNITY ENGAGEMENT

Our Community Engagement Strategy was updated in 2014 to reflect current best practice and is referred to for all new schemes. The type of engagement varies depending on the scheme and location. Many of our schemes adopt community planning strategies where local people are involved in the design, and at London Dock additional outreach events were held to engage parts of the community which were under-represented during the engagement programme, such as young people, older people and ethnic minorities.

Other opportunities may arise for the community to get involved in the final scheme, such as a competition at the Phoenix School local to White City to design an area of proposed public space.

ECOLOGY AND CLIMATE CHANGE

We continue to seek advice from ecologists on each scheme, incorporate living roofs and build sites well-connected for public transport. Our approach to ecology was noted as part of our achievement of the Queen's Award for Enterprise in Sustainable Development. In 2014 we completed a piece of research on climate change adaptation measures to be incorporated in developments, and to be considered during our own operations. 77% of new developments between 2012 and 2014 were designed to incorporate adaptation measures. It is one of our headline commitments for 2014 to 2016 to incorporate measures on all schemes.

HOW WE OPERATE: OUR VISION continued

OPERATIONS

Make the right long-term decisions whilst running the business efficiently and working with our supply chain.

OUR APPROACH

Through recognition that the property market is inherently cyclical we make decisions with a focus on the long-term. We understand the operational risks in trying to successfully identify, design, build and sell homes and create new places. We aspire to maintain excellent partnerships with our supply chain to ensure that high quality services and materials are consistently provided and we are a client of choice. We support and engage with our supply chain and, through our supply chain, we help to provide employment and support to young people. We conduct our day-to-day operations in an environmentally efficient manner and with consideration to our neighbours.

OUR HEADLINE COMMITMENTS FOR 2014 – 2016

We have set ourselves three stretching commitments in the area of Operations to further improve our approach:

- Achieve a 50% increase in site-based apprenticeships and training
- Launch a £2 million fund for the supply chain to support innovation in health and safety
- Map our supply chain risks and develop a sustainable specification and procurement strategy

SUPPLY CHAIN

Once schemes are in production, the support of a reliable and competent supply chain is critical to success. Engagement with our suppliers is key to remaining a client of choice and achieving high quality outcomes, on time and on budget. Supply chain conferences were held by several of our operating companies during 2014 and a supply chain task force was established. Risks in the supply chain have been assessed based on current and future market conditions and feedback requested from more than 100 of our suppliers; 75% said that working with the Group allowed their business to improve its own value.

In 2015 we plan to further strengthen our relationships with the supply chain through a new supplier engagement programme. An innovation fund of up to £2 million will be made available to support our supply chain, and particularly small businesses, in targeting health and safety performance across the industry.

APPRENTICESHIPS AND TRAINING

The Construction 2025 strategy set out a number of challenges for industry and Government, including invigorating the industry's image, particularly to young people, and increasing capability in the workforce. Spot checks indicate that nearly 10% of our workforce of 11,000 contractors on our sites is in formal training, including 2% currently working as an apprentice. Within St George, training has been boosted through the employment of workplace co-ordinators; 74 apprentices have been working across 11 sites during the year. Alongside our efforts with apprentices and training, we also aim to encourage young people into the industry through a series of talks and events with schools and colleges.

CONSIDERATE CONSTRUCTION

All of our construction sites are registered under the voluntary Considerate Constructors Scheme (CCS) and its Code of Practice. Our average audit score of 40.6/50 is far in excess of the industry average of 35.5.

We were delighted that one third of our schemes were recognised at the 2014 National Site Awards, including two which achieved Most Considerate Site Runner-Up status which ranks them in the top 27 construction sites in the country.

ENVIRONMENTAL MANAGEMENT

Site carbon emissions per person have reduced by 17%, with total emissions of 16,908 tonnes CO₂e from site activities in 2014. During the same period our water consumption has increased by 3%; principally this was due to significant demolition operations requiring dust suppression and landscaping works. Our waste recycling rate has increased to 94% (2013: 93%). Further information on carbon emissions is set out within the Directors' report on page 82.

HOW WE OPERATE: OUR VISION continued

OUR PEOPLE

Develop a highly skilled workforce who run autonomous businesses, operate in a safe and supportive working environment, and contribute to wider society.

OUR APPROACH

A devolved business structure is at the heart of our strategy. Our recognised brands and autonomous operational teams carefully manage each individual scheme to ensure that the entrepreneurial spirit of the business continues. Recruiting and retaining a high calibre workforce is crucial to our approach. We must support both our direct employees and the wider workforce of the contractors working on our sites. We are proud to be safe; safety continues to be a key focus area across all of our operations, in addition to enhancing health and wellbeing. We also aim to have a positive impact on society and enable young people to get into work through our support of the Berkeley Foundation.

OUR HEADLINE COMMITMENTS FOR 2014 - 2016

We have set ourselves four stretching commitments in the area of Our People to continue to improve our approach:

- Pay at least the living wage to all direct employees
- Reduce energy costs by up to £500,000, investing 50% of the saving in new health and wellbeing initiatives
- Encourage and support every member of staff to be involved with the Berkeley Foundation each year
- Launch a talent management programme which develops new ideas to enhance the business

LOYALTY AND DIVERSITY

Our business continues to grow; we now have over 1,850 direct employees who are central to our success. We are mindful of the need to attract, retain and promote a talented and diverse group of professionals at every level. In a recent staff survey undertaken by St James, 90% of employees were proud to work for St James. The business also retained its Investors in People accreditation. Across the Group, nearly 40% of employees are female as are over 20% of our Main Board directors. Coming second across all industries for 'Britain's Most Admired Company' was testament to our ability to attract talent, as well as our business performance and social responsibility.

TRAINING

Training is provided to all employees based on job roles. We also operate formal training schemes for graduates, as well as a sales academy and production academy. Skills for effective communication, working together and empowering others formed a key part of the Institute of Customer Service training already undertaken across some of the Group and planned for further rollout in 2015.

In line with this theme, a 'Working Together' conference in early May 2014 brought together 250 people from across the business to share information.

EMPLOYMENT

In addition to our direct employees, we also support a large workforce through our contractors; in April 2014 around 11,000 people were working on our sites. In fact Berkeley is directly or indirectly supporting around 21,000 jobs in the UK.

HEALTH AND SAFETY

Our Accident Incident Rate (AIR) remains better than the industry average at 2.92 (2013: 2.99). There has been an increased focus on high risk activities across the Group in the past 18 months in response to the dramatic increase in production, growth in workforce and higher proportion of more complex developments under construction. We have doubled our team of dedicated health and safety staff as well as introducing new Group Health and Safety Standards and revised safety management systems.

THE BERKELEY FOUNDATION

The Berkeley Foundation is now a registered charity which has committed or invested almost £5 million to the lives of young people and their families over the past three years. Two thirds of our employees were involved during the year 2013, whether by fundraising, volunteering or payroll giving and we are aiming to increase this to 100% over the next two years. The Job Creation Programme launched in 2013 has so far enabled more than 60 unemployed people to get into work. A new five-year strategic plan has been published to take the Foundation to 2019. For more information see berkeleyfoundation.org.uk.

TRADING AND FINANCIAL REVIEW AND OUTLOOK

"We have a clear plan to ensure that shareholders benefit from this success by returning £13 per share (over £1.7 billion) by 2021 and retaining a successful, sustainable business thereafter."

OVERVIEW

Berkeley has built and sold 3,742 new homes this year at an average selling price of £423,000, driving a 40.4% increase in pre-tax profits to £380.0 million and a rise in return on shareholders' equity from 22.4% to 27.5%.

Basic earnings per share have grown by 38.6% to 221.8 pence, of which 149 pence has been paid to shareholders as dividends in the year, and the estimated value of gross margin in the Group's land holdings is now in excess of £3 billion.

The Group remained ungeared throughout the year, with net cash rising from £44.7 million to £129.2 million after paying £195.2 million of dividends to shareholders and investing further in new land and construction.

HOUSING MARKET

Domestic demand in the housing market in London and the South of England has been strong throughout the year, above all for places benefiting from quality of design, public realm, transport links and access to jobs and amenities. The market has benefited from a stable social and political environment, low interest rates, and a return to growth in the economy.

London's standing as a global city continues to drive demand and attract investment from within the UK and overseas. London's success is crucial to economic growth and a plentiful supply of good quality new homes and places is essential to supporting this. Berkeley understands the importance of enabling those people who live and work here to find a home, and maintains its commitment to offer all of its schemes to the UK market first.

Berkeley's experience is that prices for its properties have increased in line with those reported in the market more generally.

Whilst the Government's Help to Buy scheme has been helpful in bringing home ownership to within the reach of many more people, it has had limited benefit to Berkeley as a whole due to the proportion of its sales which are off-plan. On the 17 schemes where qualifying properties were available, it has supported some 36% of sales in the year, a total of 159 sales over the last twelve months.

Cancellation rates in the year were approximately 8%. These remain low compared to normal historical ranges and reflect the stronger market both inside and outside London. This is also reflected in historically low completed stock levels at 30 April 2014, at which date Berkeley held 39 such properties in inventories compared to 140 at 30 April 2013.

LAND HOLDINGS

Berkeley has unconditionally acquired nine new sites in the year, investing a further £353 million in land to secure some 2,500 plots into its land holdings. These include six London schemes, comprising a 10 acre redevelopment site in White City, a site in Battersea with a detailed planning consent for 456 apartments, two sites on the Albert Embankment and two sites in West London. Three sites have been secured outside London in Bath, Barns Green in West Sussex and Taplow in Berkshire.

The Group has continued to add value to its land holdings during the year. Berkeley has secured a number of new planning consents in the year, including a former convent in Mill Hill, housing schemes in Finchley and Maidenhead, mixed-use schemes in Hammersmith and Twickenham, and a student development in Bath. In addition, some 10% of value has been added to the Group's land holdings through optimisation of the future phases of existing schemes and updates to price and cost valuations. At 30 April 2014, 65 of Berkeley's 77 sites have an implementable planning consent, all of which are in construction, whilst the remainder are in the planning process.

The Group's land holdings now include 24,006 plots (30 April 2013: 25,684) with an estimated future gross margin of £3,014 million (30 April 2013: £2,852 million) and an average selling price of £419,000 (30 April 2013: £378,000). This reflects the increased London weighting of Berkeley's schemes.

Pipeline of Future Land

In addition to its land holdings, the Group's pipeline of future land now comprises over 11,000 plots with a potential gross margin of some £1.5 billion. These are schemes which cannot be delivered at the current time as they do not have an implementable planning consent and are dependent on resolving practical technical constraints and challenges surrounding vacant possession. Accordingly, these sites have been differentiated from Berkeley's land holdings as they require significant further investment in land, planning and infrastructure. The Group is aiming to unlock these sites over the next five years to support the business beyond the conclusion of the current plan. Nine new sites have been added to the pipeline in the year, including six in London at Southall, Kingston, Westminster, Hornsey, Battersea and Orpington and three outside London in Bracknell, Ockham and Sevenoaks.

The pipeline provides a transparent source of land for future development beyond 2021 which is not dependent on buying land in the open market.

TRADING ANALYSIS

Revenue of £1,620.6 million this year (2013: £1,372.6 million) mainly comprised £1,605.0 million of residential revenue from the sale of new homes in London and the South of England (2013: £1,337.9 million). The remainder was commercial revenue of £15.6 million (2013: £26.4 million). There were no land sales in the year (2013: £8.3 million).

The residential revenue resulted from the sale of 3,742 new homes (2013: 3,712) on Berkeley's private, affordable and student schemes at an average selling price of £423,000 (2013: £354,000). This includes the disposal of 534 properties from Berkeley's rental fund to M&G Investments. The increase in average selling price is consistent with successful delivery of sites acquired in London since 2009, with the mix of schemes now in construction weighted towards a lower volume of higher value properties.

Revenue of £15.6 million from commercial activities (2013: £26.4 million) included the sale of retail space across a number of the Group's developments including Marine Wharf in Deptford, Goodman's Fields in Aldgate, Fulham Reach in Hammersmith and Imperial Wharf in Fulham.

PROFIT BEFORE TAX

Operating margin has increased from 20.4% to 23.1%. This reflects the benefit of operational gearing and the change of mix of residential properties sold, which includes completions at the St George Wharf Tower in the second half of the year, offset by an increase in overheads by £10.8 million to £134.1 million (2013: £123.3 million) which have reduced as a percentage of revenue from 9.0% to 8.3%.

The Group's share of the results of joint ventures was a profit of £12.1 million (2013: loss of £1.3 million) which reflects completions at both Stanmore Place and 375 Kensington High Street in the year.

Net finance costs have decreased by £1.2 million from £8.1 million to £6.9 million. The Group started and ended the year in a net cash position, and so generated some income from its cash holdings. This was more than offset by the amortisation of facility fees and other finance income and costs including imputed interest on land creditors.

Pre-tax return on equity has increased from 22.4% to 27.5% and measures underlying performance from the operational business.

Profit before tax has increased by £109.3 million from £270.7 million to £380.0 million. Basic earnings per share, which reflects the prevailing UK corporation tax rate and the issue of 4.3 million shares in January to satisfy share awards, has increased by 38.6% from 160.0 pence to 221.8 pence.

FINANCIAL POSITION

Inventories have increased from £2,066.7 million at 30 April 2013 to £2,481.2 million at 30 April 2014 which demonstrates the continued steady investment in the business. Inventories include £492.4 million of land not under development (30 April 2013: £310.0 million), £1,966.4 million of work in progress (30 April 2013: £1,711.7 million) and £22.4 million of completed stock (30 April 2013: £45.0 million).

Within work in progress, Berkeley's investment in construction has risen by £329.3 million to £1,180.3 million at 30 April 2014, supported by a 57% increase in cash due on forward sales. By taking the opportunity to forward sell, Berkeley has secured certainty over its sales prices to give it the confidence to grow its construction activities, but is mindful that build cost inflation is a risk to future margins. Upward pressure on build costs and the more restricted availability of materials and skilled labour within the supply chain have been prevalent, although in the current market the impact of this has been broadly mitigated by house price increases.

Trade and other payables are £1,367.2 million at 30 April 2014 (£1,021.4 million at 30 April 2013). These include £741.6 million of on account receipts from customers (30 April 2013: £426.1 million) and land creditors of £210.0 million (30 April 2013: £180.9 million). The increase in land creditors relates to the purchase of a site in White City in the year on deferred terms before payments made against existing land creditors at Wapping. Provisions of £57.1 million (30 April 2013: £29.0 million) include £53.3 million in respect of post completion development obligations (30 April 2013: £23.6 million) and £3.8 million of other provisions arising in the ordinary course of business (30 April 2013: £5.4 million).

During the year, £337.6 million of cash was generated from operations (2013: £291.8 million). This is before a net investment in working capital of £77.9 million (2013: £102.8 million), where the increase in the investment in construction has been matched by the increase in customer deposits, proceeds from the disposal of rental fund properties of £138.2 million (2013: £12.6 million), tax and other cash outflows of £118.2 million (2013: £79.3 million) and dividends of £195.2 million (2013: £19.7 million). A net increase in net cash of £84.5 million, together with a £34.4 million increase in capital employed in the balance sheet, has resulted in a £118.9 million rise in net assets from £1,322.4 million at 30 April 2013 to £1,441.3 million at 30 April 2014.

TRADING AND FINANCIAL REVIEW AND OUTLOOK continued

BANKING FACILITIES
At 30 April 2014, and throughout the financial year, the Group was ungeraed. Committed corporate banking facilities remain at £525 million. Of this, £250 million matures in April 2018 and £275 million in May 2018, providing good visibility and headroom within the Group's business plan.**JOINT VENTURES**

Investments accounted for using the equity method have increased from £44.1 million at 30 April 2013 to £61.4 million at 30 April 2014. This relates almost exclusively to Berkeley's investment in St Edward, a joint venture with Prudential.

St Edward has three schemes currently in development at Stanmore Place, 375 Kensington High Street and 190 Strand. 203 homes were sold in the year at an average selling price of £1,235,000 (2013: £66 at £277,000), an increase which reflects the change of mix in properties sold.

1,389 plots in Berkeley's land holdings relate to St Edward schemes (30 April 2013: 1,592), and St Edward is continuing to identify opportunities to develop the joint venture through further sites to which it can add value. This includes a commercial site in Westminster which is conditional on vacant possession and so is included in the land pipeline. The joint venture is partly funded by a £60 million bank facility which was undrawn at year end (30 April 2013: £34 million drawn).

TAXATION

The Group's policy is to pay the amount of tax legally due and to observe all applicable rules and regulations. At the same time we have an obligation to maximise shareholder value and to manage financial and reputational risk. This includes minimising and controlling our tax costs, as we look to do for all costs of our business. Factors that may affect the Group's tax charge include changes in legislation, the impact of corporate activity (restructuring, acquisitions, disposals, etc), the resolution of open tax issues from prior years and planning opportunities. The Group makes provision for potential tax liabilities that may arise, however the amount ultimately paid may differ from the amount accrued.

RENTAL FUND

Berkeley's private rental fund held 729 properties at a historic cost of £102.3 million at 30 April 2013. 534 of the properties were held at £75.8 million as 'Non-current assets classified as held for resale', and the remaining 195 properties were held in 'Investment properties' at £26.5 million.

The sale of the 534 properties held for resale to M&G Investments completed on 5 June 2013 for an aggregate price of £105.4 million included in revenue. After repayment of £17.4 million of funding from the Homes and Communities Agency, and re-investment of £10 million for a minority stake in the M&G Investment Fund, the net proceeds of sale were £75.2 million and a profit of £29.6 million was recognised within operating profit in the year.

54 properties from Berkeley's rental fund remain held in Investment properties at £7.2 million at 30 April 2014 (195 at £26.5 million at 30 April 2013). This follows the disposal in the year of 141 properties for £32.8 million of revenue and a profit of £13.6 million where market conditions have supported their sale.

GROUND RENTS

On 30 May 2014, the Group exchanged contracts for the sale of a portfolio of ground rent assets for £99.8 million. The sale is expected to give rise to a non-recurring profit on disposal of approximately £80 million after transaction costs in the first half of the year ending 30 April 2015.

LONG-TERM STRATEGIC PLAN

Berkeley has a long-term strategic plan to return £13 per share to shareholders by 30 September 2021, broken down into three milestones of 434 pence by September 2015, 433 pence by September 2018 and 433 pence by September 2021.

The Board has considered the results of the Group and determined that it is appropriate to propose a further interim dividend of 90 pence per share, payable on 26 September 2014 to shareholders on the register on 22 August 2014. With this, the Group has now paid or committed to pay a total of 254 pence per share under its long-term plan to return 1,300 pence per share to shareholders by 2021, and it leaves 180 pence per share to return to meet the first milestone of 434 pence per share by September 2015.

OUTLOOK

These results demonstrate that Berkeley is well placed and, although earnings remain sensitive to the timing of delivery of some of its larger developments, the Board currently expects underlying full year earnings in 2015 to be in line with current market expectations before the one-off benefit of the sale of the ground rent assets. The Group remains alert to the uncertainty which will arise from changes to the economic and political landscape in the run-up to a 2015 General Election and may impact the business and the market more generally.

Berkeley understands the industry and the inherently cyclical market in which it operates, and has the right strategy, people and framework to deliver long-term sustainable success. The Group is on course to meet its commitment to return over £1.7 billion to shareholders by 2021 and, with the visibility provided by the land pipeline, provide a sustainable business thereafter.

AWARDS

The Berkeley Group is proud to have been awarded the Queen's Award for Enterprise for Sustainable Development this year for the second time, the first housebuilder to achieve this.

For the third time, we have been recognised by Management Today as one of Britain's Most Admired Companies, recognised as the leading housebuilder and ranked second alongside some of the country's most successful and respected businesses.

CORPORATE GOVERNANCE REPORT

The Company is committed to maintaining a high standard of corporate governance in respect of leadership, effectiveness, accountability, remuneration and relationships with our shareholders as identified by the UK Corporate Governance Code 2012 (the Code). In the year to 30 April 2014, the revised principles and provisions of the Code (published in September 2012 by the Financial Reporting Council (FRC) applied to the Company.

This section, including the Audit Committee Report and the Remuneration Report detail how the Company has applied the principles and provisions of the Code. The Company's business model is explained in the Strategic Report. It is the Board's view that it has been fully compliant with the Code throughout the 2013/14 financial year other than in respect of the composition of the Remuneration Committee on which there were two rather than three independent Non-executive Directors between 2 September 2013 and 30 April 2014.

The Group has been fully compliant since 1 May 2014 when Andy Myers was appointed to the committee. A copy of the Code is available on the Financial Reporting Council's website www.frc.org.uk

THE BOARD

ROLE

The Board has a collective responsibility for promoting the long term success of the Company in a safe and sustainable manner in order to create shareholder value. The Board provides leadership and sets the Company's strategic long-term objectives.

Its duties are set out in a formal schedule of matters specifically reserved for decision by the Board, which include:

- Overall management of the Group, its strategy and long-term objectives;
- Approval of corporate plans;
- Approval of all corporate transactions;
- Changes to the Group's capital structure;
- Approval of the Group's treasury policy;
- Approval of the Group's interim and annual results, dividend policy and shareholder distributions;
- Reviewing the Group's risks and system of internal control;
- Changes to the Board and other senior executive roles;
- Corporate Governance arrangements and the Board evaluation; and

- Approval of policies in key areas including Sustainability, Health & Safety and Business Ethics.

COMPOSITION, DIVERSITY AND INDEPENDENCE

At the date of this report the Board comprises fourteen Directors; the Chairman, five Executive Directors and eight independent Non-executive Directors. The biographies of these directors are set out on page 48.

During the year, Alan Coppin stepped down from the Board and Adrian Li was appointed as an Independent Non-executive Director at the Annual General Meeting on 2 September 2013. On 6 December 2013, Andy Myers was also appointed as an Independent Non-executive Director. On 1 May 2014, Diana Brightmore-Armour was appointed as an Independent Non-executive Director.

The Board has evolved over recent years to put in place the succession planning that all successful organisations require and the composition of the Board continues to be reviewed on a regular basis to ensure that an appropriate balance of skills is maintained. The Board has chosen not to set specific representation targets for women at Board level at this time. However, it recognises that the benefits of diversity, including gender diversity, will continue to be an active consideration when further changes to the Board's composition are considered.

The Board considers that all of the current Non-executive Directors were independent throughout the year. David Howell joined the Board in February 2004 and has now served more than nine years on the Board. At the Annual General Meeting on 1 September 2014, David Howell will step down from the Board. The Non-executive Directors, led by the Senior Independent Director Sir John Armitt, have the skills, experience, independence and knowledge of the Company to enable them to discharge their respective duties and responsibilities effectively.

The Group Executive Directors do not hold any Non-executive Director appointments or commitments required to be disclosed under the Code.

CHAIRMAN AND MANAGING DIRECTOR

The roles of Group Chairman and Group Managing Director are separately held and there are clear written guidelines to support the division of responsibility between them. The Group Chairman is responsible for the effective conduct of the Board and shareholder meetings and

for ensuring that each Director contributes to effective decision-making. The Group Managing Director has day-to-day executive responsibility for the running of the Group's businesses. His role is to develop and deliver the strategy to enable the Group to meet its objectives.

MEETINGS

The Board met five times during 2013/14 and there were no absences.

In addition to the above formal meetings of the whole Board, the Non-executive Directors meet with the Group Chairman. The Group Managing Director and Group Finance Director are invited to attend these meetings in part, to provide an update on the business activities of the Group. The Non-executive Directors meet at least annually without the Group Chairman present, chaired by the Senior Independent Director.

Board papers and agendas are sent out in the week prior to each meeting, thus allowing sufficient time for detailed review and consideration of the documents beforehand. In addition, the Board is supplied with comprehensive management information on a regular basis.

ELECTION AND RE-ELECTION OF DIRECTORS

The Articles of Association of the Company include the requirement for Directors to submit themselves to shareholders for re-election every three years. In addition, all Directors are subject to election by shareholders at the first opportunity after their appointment and thereafter at intervals of no more than three years.

However, in accordance with the requirements of the Code, all Directors offer themselves for re-election at the Annual General Meeting on 1 September 2014, other than David Howell who is standing down from the Board.

INDUCTION AND DEVELOPMENT

On appointment, Non-executive Directors are provided with a detailed induction programme. This covers an overview of the Group's operations and its policies, corporate responsibility and corporate affairs issues, legal matters, and the opportunity to meet with Directors and key staff and to visit the Group's sites.

No training needs were identified this year, although ongoing training is available to all Directors to meet their individual needs. Board members also receive guidance on regulatory matters and the corporate governance framework that the Group operates under.

Members of the Audit and Remuneration Committees received briefings from our auditors and remuneration advisers respectively to ensure they remain up to date with current regulations and developments.

All Directors have access to advice from the Company Secretary and independent professional advisers, at the Company's expense, where specific expertise is required in the course of their duties.

BOARD EVALUATION

The Code requires that the Board undertakes an annual evaluation of its own performance and that of its committees and individual directors with an externally facilitated evaluation conducted every three years. Having sought the services of an independent externally facilitated third party for the 2013 evaluation, the Board evaluation for 2014 was carried out by the Group Solicitor and covered:

- Strategic matters
- Board structure, committees and their operation
- Succession planning
- Induction and development
- Assessment of the performance of individual committees and the Chairman
- Shareholder communication

The unanimous outcome of the review was that the Board works very well and that all the Directors are passionate about the business, and that they enjoy their role on the Board.

The Board has a pivotal role in preserving the organisation's culture and ultimately its success. In line with all successful organisations, succession planning is seen as a key focus for the Company and the Board continues to evolve to address this issue. The autonomous structure of the Group also provides strength in depth which further mitigates this risk.

An action plan has been agreed by the Board to address the recommendations made from the review.

CONFLICTS OF INTEREST

In accordance with the Companies Act 2006, the Company's Articles of Association allow the Board to authorise potential conflicts of interest that may arise and to impose such limits or conditions as it thinks fit. The decision to authorise a conflict of interest can only be made by non-conflicted Directors (those who have no interest in the matter being considered) and in making such a decision the Directors must act in a way they

consider in good faith will be most likely to promote the Company's success.

The Company has established a procedure whereby actual and potential conflicts of interest of current and proposed roles to be undertaken by Directors of the Board with other organisations are regularly reviewed in respect of both the nature of those roles, and their time commitment, and for proper authorisation to be sought prior to the appointment of any new director. The Board consider these procedures to be working effectively.

INSURANCE

The Company had in place at 30 April 2014 an appropriate policy which insures Directors against certain liabilities, including legal costs, which they may incur in carrying out their duties. This remains in place.

BOARD COMMITTEES

The Board has delegated certain matters to individual Executives and to the specific committees of the Board; audit, remuneration and nomination. The main three Board Committees operate within clearly defined Terms of Reference pursuant to the provisions of the Code. The Terms of Reference can be downloaded from the section dealing with Investor Relations on the Berkeley website (www.berkeleygroup.co.uk). Copies are also available to shareholders on application to the Company Secretary.

The responsibilities of the key Board committees are described below.

EXECUTIVE COMMITTEE

The Executive Committee meets monthly and reviews the financial and operating performance of all Group divisions and companies. The Group Managing Director, Rob Perrins, chairs this Committee and other members comprise, Tony Pidgley, Nick Simpkin, Karl Whiteman, Sean Ellis and Greg Fry alongside other senior management.

AUDIT COMMITTEE

The Audit Committee is responsible for monitoring and reviewing the financial reporting and accounting policies of the Company, reviewing the adequacy of internal controls and the activities of the Group's internal audit function and overseeing the relationship with the external auditor.

The Audit Committee comprises five independent Non-executive Directors. The Committee is chaired by David Howell and the other members at 30 April 2014 were Alison Nimmo, Andy Myers, Glyn Barker and Veronica Wadley.

David Howell, Andy Myers and Glyn Barker are all considered to have recent and relevant experience. David Howell is qualified as a chartered accountant and was the Chief Financial Officer and a Main Board Director of lastminute.com plc; Andy Myers is qualified as a chartered accountant and is currently Chief Financial Officer at McLaren Group Limited; and Glyn Barker is also qualified as a chartered accountant, having previously held a number of senior posts within PwC including Managing Partner and Head of Assurance. Upon David Howell's retirement from the Board at the Annual General Meeting on 1 September 2014, the Committee will be chaired by Andy Myers.

The Committee met formally on three occasions during the year to 30 April 2014 with no absences.

An explanation of the role and activities of the Audit committee during the year is contained in the Audit Committee report on pages 54 to 55.

REMUNERATION COMMITTEE

The Remuneration Committee is responsible for determining the Company's policy for Executive remuneration and the precise terms of employment and remuneration of the Executive Directors.

At 30 April 2014, the Committee comprised Glyn Barker and Sir John Armitt who are both independent Non-executive Directors. The Committee was chaired by Glyn Barker. On 1 May 2014 Andy Myers was appointed to the Committee.

The Committee met formally on two occasions during the year to April 2014 with no absences.

No Director is involved in deciding his or her remuneration. The Executive Directors decide the remuneration of the Non-executive Directors and the Committee takes into consideration the recommendations of the Group Managing Director and Group Finance Director regarding the remuneration of their Executive colleagues.

The principles and details of Directors' remuneration are contained in the Remuneration Report on pages 56 to 80.

NOMINATION COMMITTEE

The Nomination Committee ensures that the membership and composition of the Board, including the balance of skills, is appropriate, as well as giving full consideration to succession planning on a regular basis.

The Committee is chaired by the Group Chairman, Tony Pidgley and the Independent Non-executive members at 30 April 2014

were David Howell, Sir John Armitt and Veronica Wadley. David Howell will step down from the Committee on 1 September 2014.

The Committee met formally on two occasions during the year to 30 April 2014 with no absences.

During the year, the activities of the Committee included considering and making recommendations to the Board regarding the membership of the Board committees and reviewing succession plans for the Executive team.

The process for identifying and recommending new appointments includes a combination of discussions and consultations, in addition to formal interviews, utilising the services of independent recruitment specialists, as appropriate.

KEY RISKS AND INTERNAL CONTROL

The Board acknowledges that it has overall responsibility for ensuring that the Group's system of internal control comply with the UK Corporate Governance Code 2012 and for reviewing its effectiveness, at least annually.

Internal control procedures are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

There are ongoing processes and procedures for identifying, evaluating and managing the significant risks faced by the Group. These processes and procedures were in place from the start of the financial year to the date on which the 2014 Annual Report and Accounts were approved and accord with the Turnbull guidance issued in 2005.

The processes are regularly reviewed by the Board and include an annual review by the Directors of the operation and effectiveness of the system of internal control as part of its year end procedures. The key features of the system of internal control include:

CLEAR ORGANISATIONAL STRUCTURE

The Group operates through autonomous divisions and operating companies, each with its own board. Operating company boards meet on a weekly basis and divisional boards on a monthly basis, and comprehensive information is prepared for such meetings on a standardised basis to cover all aspects of the business. Formal reporting lines and delegated levels of authority exist within this structure and the review of risk and performance occurs at multiple levels

throughout the operating companies, divisions and at Group.

RISK ASSESSMENT

Risk reporting is embedded within ongoing management reporting throughout the Group. At operating company and divisional level, Board meeting agendas and packs are structured around the key risks facing the Group. These risks include health and safety, sales, production (build cost and programme), land and planning, economic, regulatory and site specific matters.

In addition, there is a formalised process whereby each division produces quarterly risks and control reports that identify significant risks, the potential impact and the actions being taken to mitigate the risks. These risk reports are reviewed and updated regularly.

A Group Risk Management Report is presented at each Group Main Board Meeting, setting out the current factors affecting the risk profile of the Group, the mitigation of these risks and the key changes to this risk profile since the last report.

FINANCIAL REPORTING

A comprehensive budgeting and real-time forecasting system, covering both profit and cash, operates within the Group. This enables executive management to view key financial and operating data on a daily basis. On a weekly and monthly basis more formal reporting up to the Group Executives is prepared. The results of all operating units are reported monthly and compared to budget and forecast.

There is a consolidation process in place which ensures that there is an audit trail between the Group's financial reporting system and the Group's statutory financial statements.

INVESTMENT AND CONTRACTING CONTROLS

The Group has clearly defined guidelines for the purchase and sale of land within the Group, which include detailed environmental, planning and financial appraisal and are subject to executive authorisation. Rigorous procedures are also followed for the selection of consultants and contractors. The review and monitoring of all build programmes and budgets are a fundamental element of the Company's financial reporting cycle.

POLICIES AND PROCEDURES

Policies and procedures, including operating and financial controls, are detailed in policies and procedures manuals that are refreshed and improved as appropriate. Training to staff is given where necessary.

CENTRAL FUNCTIONS

Strong central functions, including Legal, Health & Safety and Company Secretarial, provide support and consistency to the rest of the Group. In addition, the principal treasury-related risks, decisions and control processes are managed by the Group Finance function, under the direction of the Group Finance Director.

INTERNAL AUDIT

Internal auditors are in place at divisional and Group level to provide assurance on the operation of the Group's control framework.

WHISTLEBLOWING

The Group has a whistleblowing policy which has been communicated to all staff, where Directors, management and staff can report in confidence any concerns they may have of malpractice, financial irregularity, breaches of any Group procedures, or other matters.

BRIBERY ACT

The Board has responsibility for complying with the requirements of the Bribery Act 2010 and is charged with overseeing the development and implementation of the Group's policies and procedures and monitoring ongoing compliance.

RELATIONS WITH SHAREHOLDERS

The Company encourages active dialogue with its current and prospective shareholders through ongoing meetings with institutional investors. Major shareholders have the opportunity to meet all Directors after the Annual General Meeting in addition to individual meetings with the Company.

Shareholders are also kept up to date with the Company's activities through the Annual and Interim Reports and Interim Management Statements. In addition, the corporate website gives information on the Group and latest news, including regulatory announcements. The presentations made after the announcement of the preliminary and interim results are also available on the website.

The Board is kept informed of the views of the shareholders through periodic reports from the Company's broker UBS. Additionally, the Non-executive Directors have the opportunity to attend the bi-annual analyst presentations.

The Senior Independent Director is available to shareholders if they have concerns where contact through the normal channels has failed or when such contact is inappropriate.

ANNUAL GENERAL MEETING

All shareholders are invited to participate in the Annual General Meeting ("AGM") where

the Group Chairman, the Group Managing Director and the Chairmen of the Audit, Remuneration and Nomination Committees will be available to answer questions and will also be available for discussions with shareholders both prior to and after the meeting.

In accordance with the Code, the Company arranges for the Annual Report and Accounts and related papers to be posted to shareholders so as to allow at least 20 working days for consideration prior to the AGM.

The Company complies with the provisions of the Code relating to the disclosure of proxy votes, which, including abstentions, are declared at the AGM after each resolution has been dealt with on a show of hands and are announced to the Stock Exchange shortly after the close of the meeting. The Company also complies with the requirements of the Code with the separation of resolutions and the attendance of the Chairmen of the Board Committees.

The terms and conditions of appointment for the Non-executive Directors, which set out their expected time commitment, in addition to the service contracts for the Executive Directors, are available for inspection at the AGM and during normal business hours at the Company's registered office.

AUDIT COMMITTEE REPORT

The Board of Directors presents its Audit Committee Report for the year ended 30 April 2014 which has been prepared on the recommendation of the Audit Committee ("the Committee").

The report has been prepared in accordance with the requirements of the UK Corporate Governance Code, Schedule 8 of the Large & Medium-Sized Companies and Groups (Accounts and Reports) Regulations 2008, and the Listing Rules of the Financial Conduct Authority.

Details of the composition, experience and the number of meetings of the Committee are reported on page 51 of the Corporate Governance Report.

ROLE AND RESPONSIBILITIES OF THE AUDIT COMMITTEE

The Committee has formal Terms of Reference which set out its role and the authority delegated to it by the Board. The key responsibilities of the Committee are as follows:

- **Financial Reporting**
Monitoring the integrity of the financial reporting of the Company and reviewing significant financial reporting issues and accounting policies;
- **Internal Control and Internal Audit**
Reviewing the adequacy and effectiveness of the Group's internal control and risk management systems and monitoring the effectiveness of the Group's internal audit function; and
- **External Audit**
Overseeing the relationship with the external auditor, including appointment, removal and fees, and ensuring the auditor's independence and the effectiveness of the audit process.

This report considers each of these responsibilities in turn, and how the Committee has discharged them during the year.

FINANCIAL REPORTING

At each of the Audit Committee meetings, the Group Finance Director Nick Simpkin presented, and the Committee debated, the results and business plan of the Group and any significant financial reporting judgements relevant to this.

The Committee reviewed, prior to their publication, the financial disclosures in the Group's Annual Report and Accounts, Preliminary Announcement, Interim Report and the contents of interim management statements issued during the year.

The Committee's review incorporated consideration of the appropriateness of the relevant accounting policies and financial reporting judgements adopted therein.

The Committee's review of the Annual Report concentrated on whether, taken as a whole, it was fair, balanced and understandable and provided the information necessary for users of the Annual Report to assess the Group's business strategy and performance.

The views of the Group's auditor, which was in attendance at each meeting of the Committee during the year, were taken into account in reaching its conclusions on these matters.

The significant matters considered by the Committee in 2014 included:

• Carrying value of inventories and margin recognition

Inventories comprise land not under development, work in progress and completed units, which are held in the balance sheet at the lower of cost and net realisable value. This demands a periodic assessment by the management team of each of Berkeley's sites which is sensitive to assumptions in terms of future sales prices and construction costs and recognises the inherently cyclical nature of the property market and the risks of delivery. These assumptions are also relevant to the determination of profit recognised on properties sold.

The conclusions of this assessment were reported by exception to the Committee in a financial overview paper prior to release of the Group's annual and interim results.

The Committee undertook its annual review of the Group's Internal Control Framework during the year. This review focused on the system of risk management and internal control in place which is explained in more detail on page 52 of the Corporate Governance Report, and covered:

- the key risks facing the Group;
- the key elements of the Group's control processes to mitigate these risks;
- the operations and effectiveness of internal audit.

A paper was also presented to the Committee which summarised the Group's consideration, controls and monitoring of fraud risk across its activities.

The Committee also considered any internal control recommendations raised by the Group's auditors during the course of the external audit and the company's response to dealing with such recommendations.

A report summarising the recent activities of the Internal Audit function within Berkeley was presented to each of the Committee meetings during the year. These reports covered:

• Revenue recognition

The Committee recognises that the Group's accounting policy for revenue recognition, namely that properties are treated as sold and profits are recognised when contracts are exchanged and building work is physically complete, involves an element of judgement in determining the point at which building work is physically complete. The Committee reviewed the quantum of properties not yet legally completed at each balance sheet date in conjunction with the review undertaken by the Group's external auditor and concluded that the judgements were appropriate.

Other matters considered by the Committee included management's assessment of the going concern status of the Group at the balance sheet date and the accounting for share-based payments, although no new share options have been granted in the year. The Committee concurred with management's adopted approach on all of these matters.

Since the year end, the Committee has completed its review of the 2014 Annual Report and has confirmed to the Board that it considers it to be fair, balanced and understandable.

INTERNAL CONTROL AND INTERNAL AUDIT

The Committee undertook its annual review of the Group's Internal Control Framework during the year. This review focused on the system of risk management and internal control in place which is explained in more detail on page 52 of the Corporate Governance Report, and covered:

- the key risks facing the Group;
- the key elements of the Group's control processes to mitigate these risks;
- the operations and effectiveness of internal audit.

A paper was also presented to the Committee which summarised the Group's consideration, controls and monitoring of fraud risk across its activities.

The Committee also considered any internal control recommendations raised by the Group's auditors during the course of the external audit and the company's response to dealing with such recommendations.

A report summarising the recent activities of the Internal Audit function within Berkeley was presented to each of the Committee meetings during the year. These reports covered:

- a summary of the key findings arising from the most recent formal internal audits undertaken;

- management responses to any control weaknesses identified, the closure of any open items and any recurring themes;
- the outcome of other operational review work undertaken by the internal audit function;
- the internal audit plan for the coming year, for debate with and the approval of the Committee.

The Committee was satisfied that the scope, extent and effectiveness of the Internal Audit function are appropriate for the Group.

EXTERNAL AUDIT

During the year, in accordance with evolving best practice, the Committee undertook a competitive tender process for the audit of the Company and its subsidiaries for the year ended 30 April 2014. PricewaterhouseCoopers LLP ("PwC") and its predecessor firm had been Berkeley's auditor since the Company first listed in 1984.

The tender process sought to assess a combination of the tendering parties' understanding of the business, industry and related risks, their intended approach, the skills and experience of the proposed team and a comprehensive plan to manage a successful transition.

Following this process, KPMG LLP ("KPMG") was appointed to fill a casual vacancy in accordance with the Companies Act 2006.

APPROACH

KPMG presented its audit strategy at the first Audit Committee meeting following their appointment. The strategy document identified its assessment of the key risks of the business for the purpose of the audit, the scope of their work and updated the Committee on regulatory changes for the current year. KPMG also updated the Committee on its interaction with PwC in respect of the handover of the external audit.

KPMG reported to the Committee at the year end, prior to the public announcement of the Company's results, in which it set out its assessment of the Company's judgements and estimates in respect of these risks and any other findings arising from its work. Its work also included a review of the adequacy of Berkeley's external reporting for compliance with prevailing regulations.

The external auditors have open recourse to the Non-executive Directors should they consider it necessary. There is private

dialogue between the Chairman of the Audit Committee and the external auditors prior to each Audit Committee meeting and, after each meeting, the opportunity for the Committee to meet with the external auditors without the Executive Directors and management present.

INDEPENDENCE OF THE EXTERNAL AUDITORS

As part of its audit strategy presentation, and through the audit tender process, KPMG identified the safeguards in place within its internal processes and procedures to protect, in respect of its own role, the independence of its audit.

The Committee has a policy on the use of the auditors for non-audit services in order to safeguard auditor independence and the ratio of audit fees (including the fees for the Interim Review) to non-audit fees should be no greater than 1:1. The ratio for the year ended 30 April 2014 was within the limits of this ratio. Audit and non-audit fee disclosures are set out in Note 4 of the Consolidated Financial Statements.

Any departure from this ratio will only be as a consequence of transactional work, where the Committee considers it is right for the auditors to undertake such work where the reasons for doing so are compelling, such as where:

- i) it is proprietary to them;
- ii) they have pre-existing knowledge and experience that precludes the use of alternative firms;
- iii) the nature of the transaction is such that the Group's auditors are the only practical solution.

Non-audit work carried out by all accounting firms, including the auditors, is formally reported to the Audit Committee at each meeting. There is open dialogue between KPMG and the Company's senior finance team to monitor any proposed new instructions.

The Committee has concluded that it is comfortable that the auditors are independent.

APPOINTMENT OF KPMG

On completion of the audit, the Committee reviewed the performance and effectiveness of KPMG with feedback from executive management. The Committee has resolved to propose KPMG's appointment at the 2014 Annual General Meeting.

In deciding to tender the audit this year, the Committee was mindful of evolving

best practice under the UK Corporate Governance Code 2012, and will monitor the proposals of the Financial Reporting Council and the European Union in determining its future approach to re-tendering.

DIRECTORS' REMUNERATION REPORT

ANNUAL STATEMENT FROM CHAIRMAN OF REMUNERATION COMMITTEE

Dear Shareholder

This Remuneration Report is split into two parts:

- The Directors' Remuneration Policy sets out Berkeley's policy and the key factors that were taken into account in setting the policy. The Directors' Remuneration Policy will be subject to a binding vote at the AGM in September 2014 and will apply for a period of three years.
- The Annual Report on Remuneration sets out payments and awards made to the Directors and details the link between Company performance and remuneration for the 2013/14 financial year. The Annual Report on Remuneration together with this letter is subject to an advisory shareholder vote at the AGM in September 2014. The sections of this report that have been subject to audit are labelled accordingly.

CORPORATE PERFORMANCE

Berkeley has delivered strong performance and growth during 2013/14, with the key highlights being:

- Pre-tax return on shareholders' equity of 27.5% (2013: 22.4%)
- Dividends paid to shareholders of £195 million (2013: £20 million)
- Future anticipated gross margin in the land bank up 5.7% to £3,014 million (2013: £2,852 million)
- Basic earnings per share increased by 38.6% to 221.8 pence (2013: 160.0 pence)
- Net asset value per share increased by 5.6% to 1,065.6 pence (2013: 1,009.1 pence)

The results underline the Group's aim of balancing earnings in the near term and creating a sustainable business, delivering value to shareholders over the long term.

Berkeley's Return on Equity compared with the sector over the last six years illustrates the relative performance of the Company:

Company	2008/09	2009/10	2010/11	2011/12	2012/13	2013/14
Berkeley	16.2%	13.3%	15.3%	21.2%	22.4%	27.5%
Sector highest	16.2%	13.3%	15.3%	21.2%	22.4%	27.5%
Sector lowest	(73.4%)	(44.2%)	(6.2%)	(0.4%)	3.4%	3.5%
Sector average (excluding Berkeley)	(26.0%)	(18.1%)	1.0%	4.8%	8.5%	11.4%

Berkeley's remuneration policy aims to encourage, reward and retain the Executives and ensure that their actions are aligned with the Company's strategy.

In particular, the emphasis on performance related pay aligns the Executives with the performance of the business which is coupled with long term incentives that lock in the Executive team for up to 10 years which is far longer than is typical in most publicly listed companies.

INCENTIVE OUTCOMES IN 2013/14

The key incentive outcomes from the performance this year are:

- Each Executive Director earned the maximum annual contribution under the Bonus Plan;
- The awards under Part A of the 2009 LTIP vested during the year. The exercise of these awards resulted in an increase in shareholding for A W Pidgley, R C Perrins and G J Fry.

OPERATION OF POLICY IN 2014/15

There are no changes to the operation of the policy for 2014/15.

The Executive Directors have received salary increases for 2014/15 of approximately 3%, compared to average salary increases across the Group of 6.1%.

NEW BONUS PLAN FOR 2015/16

The Committee is seeking shareholder approval for a new Bonus Plan at the September 2014 AGM which will form part of the policy for the financial year 2015/16 and subsequent years. Details of the new Bonus Plan are set out in the Notice of AGM and it is proposed that the Plan will operate on the same principles as the existing Bonus Plan.

IN CONCLUSION

I look forward to receiving your support for the resolution seeking approval of the Annual Report on Remuneration at our forthcoming AGM as well as on the Remuneration Policy applicable to our Directors which will apply from the forthcoming AGM in September 2014.

GLYN BARKER
CHAIRMAN, REMUNERATION COMMITTEE

DIRECTORS' REMUNERATION POLICY

This section of the Remuneration Report contains details of the Company's Directors' Remuneration Policy that will govern the Company's future remuneration payments. The policy described in this part is intended to apply for three years and will be applicable from the Company's AGM in September 2014 subject to approval by shareholders at the AGM. The policy part will be displayed on the Company's website, in the investor relations area, immediately after the 2014 AGM.

The Committee has established the policy on the remuneration of the Executive Directors; the Board has established a policy on the remuneration of the Non-executive Directors.

REMUNERATION POLICY

The objective of Berkeley's remuneration policy is to encourage, reward and retain the current Executives and ensure their actions are aligned with the Company's strategy. The core philosophies of the policy are:

- Fixed remuneration:** The Committee sets salaries for the Executive Directors based on their experience, role, individual and corporate performance. Salaries on appointment to the Board are set at a lower quartile level of the comparator group which, based on appropriate levels of individual and corporate performance, will be increased with experience gained over time.
- Annual performance related pay:** The Committee believes that shareholders' interests are best served by remuneration packages that have a large emphasis on performance-related pay which encourage the Executive Directors to focus on delivering the business strategy.
- Long-term sustainable performance:** The long-term incentives which extend to 2021 have been designed to lock in the Executive team for a far longer period than is typical in most publicly listed companies. This helps to ensure that the Executive team are focused on generating long-term sustainable value for shareholders, not just on meeting short term performance targets.
- Substantial equity holdings:** In order to align the interests of Executive Directors and shareholders, the reward strategy is designed so that, provided performance is delivered, the Executive team become material (in relation to their overall compensation) shareholders in the Company.

REMUNERATION POSITIONING

The policy is to set the main elements of the Executive Directors' remuneration package against the following quartiles in the Company's comparator group:

Base salary	Benefits	Pension	Annual Bonus	Long-term Incentives
Experience & Role	Market practice	Lower quartile	Upper decile	Upper decile

For the purposes of benchmarking remuneration the Committee used the following comparator group of companies for the 2014/15 financial year.

Amec PLC	Bellway PLC	Marshalls PLC	Taylor Wimpey PLC
Balfour Beatty PLC	Bovis Homes Group PLC	Persimmon PLC	Travis Perkins PLC
Barratt Developments PLC	Carillion PLC	Redrow PLC	

The Committee also considers the remuneration in the FTSE 250 as an additional benchmark to the main comparator group set out above due to its relatively small number of constituent companies. On an annual basis the Committee will review the comparator groups to ensure that they remain appropriate.

REMUNERATION POLICY DISCRETION

The Committee has discretion in several areas of policy as set out in this report. The Committee may also exercise operational and administrative discretions under relevant plan rules approved by shareholders. In addition, the Committee has the discretion to amend policy with regard to minor or administrative matters where it would be, in the opinion of the Committee, disproportionate to seek or await shareholder approval.

DIRECTORS' REMUNERATION REPORT continued

FUTURE POLICY – EXECUTIVE DIRECTORS

The table below sets out the key elements of the policy for Executive Directors:

Objective and link to strategy	Operation	Maximum opportunity	Performance condition and assessment
Base salary			
Core element of remuneration, set at a level which is sufficiently competitive to recruit and retain Executive Directors of the appropriate calibre and experience to achieve the Company's business strategy.	<p>Salaries are reviewed annually and any changes are effective from 1 May each year.</p> <p>In setting levels of base salary, the Committee takes into account the following factors in setting individual salary levels:</p> <ul style="list-style-type: none"> • the individual Executive Director's experience and responsibilities; • the levels of base salary for similar positions with comparable status, responsibility and skills in organisations of broadly similar size and complexity; • the performance of the individual Executive Director and the Group; • pay and conditions throughout the Group. <p>In general salary rises will be limited to the level provided to employees of the Company as a whole.</p>	<p>The annual salary for each Executive Director is set out in the statement of implementation of remuneration policy for 2014/15 on page 77.</p> <p>The Committee has a policy on appointment of bringing Executive Directors on to the Board at lower quartile levels of salary and increasing salaries as experience is gained and performance in the role can be evaluated.</p> <p>Where an Executive is extremely experienced and has a long track record of proven performance salaries may be in the upper decile.</p> <p>In setting salaries, the Committee looks at companies of broadly similar size and complexity, in particular those companies within the comparator group and those in the FTSE 250.</p>	<p>There are no performance conditions on salary. However, the performance of the individual and the Company are reflected in the salary they are paid.</p>
Benefits			
To provide competitive levels of employment benefits.	In line with market practice, the Company's policy is to provide Executive Directors with the following additional benefits:	Benefit values vary year on year depending on premiums and the maximum value is the cost of the provision of these benefits.	None.
Policy: Market practice	<ul style="list-style-type: none"> • a fully expensed company car or cash allowance alternative; • medical insurance; • other benefits may be provided from time to time. <p>Benefits are reviewed periodically to ensure they remain market competitive.</p> <p>The payments are not included in salary for the purposes of calculating any benefit or level of participation in incentive arrangements.</p>		

Objective and link to strategy	Operation	Maximum opportunity	Performance condition and assessment
Annual Bonus			
	<p>The Bonus Plan aligns rewards to the key objectives linked to short to medium term performance whilst ensuring that there is a balance between incentivising the Executive Directors, providing a sustainable ongoing level of return to shareholders and ensuring the long-term sustainability of the Company.</p> <p>The Notice of AGM sets out details of the proposed replacement for the Bonus Plan which will form part of the policy, subject to shareholder approval, for the financial year 2015/16 and subsequent years.</p> <p>Policy: Upper decile</p>	<p>At the beginning of the plan period of five financial years (first bonus year started in FY 2010/11), participants had a plan account to which Company contributions were made.</p> <p>No Company contribution is made to a participant's plan account unless the annual performance criteria are met.</p> <p>The Company contribution will be set annually as a percentage of salary for each Executive Director.</p> <p>Having regard to the strategy of the Company, the Committee will set:</p> <ul style="list-style-type: none"> • The performance levels (including minimum performance thresholds) for the performance conditions for each plan year; • The maximum annual Company contribution for each participant for the plan year. <p>Participants will be entitled to an annual payment of 50% of their plan account at the end of each financial year. All balances will be deferred in shares or notional shares. At the end of the five year plan period 100% of the balance of participants' accounts will be paid.</p> <p>Dividends paid during a financial year will be added to a participant's plan account on an annual basis.</p>	<p>The maximum bonus potential for all Executive Directors is 300% of salary for any plan year.</p> <p>At threshold performance no bonus can be earned.</p> <p>At target performance 50% of the maximum bonus can be earned.</p> <p>Bonus is earned on a straight line basis between points.</p>
Policy: Experience and role			
			<p>There are two types of performance condition; Group and Divisional. Both are measured at the end of each financial year.</p> <p>The bonus payable to each of the Group Chairman, Group Managing Director and Group Finance Director is determined by reference to Group performance.</p> <p>For the Divisional Directors, 50% of the potential bonus payable is determined by reference to Group performance and 50% by reference to Divisional PBT performance for which they have responsibility.</p> <p>The Group performance condition is a matrix of Return on Equity (ROE) and Land Bank Growth.</p> <p>The Divisional performance condition is based upon Divisional Profit before Tax (PBT).</p> <p>There is a risk adjustment mechanism built into the operation of the Bonus Plan. If the threshold levels of ROE, Land Bank Growth or Divisional PBT are not met for any financial year during the five years of operation of the Bonus Plan part of a participant's plan account will be forfeited. This adjustment mechanism ensures:</p> <ul style="list-style-type: none"> • Performance must be maintained over the five years of operation of the Bonus Plan or the value in the participant's plan account will not increase; • If there is a material deterioration in performance, 50% of the balance of the participant's account will be forfeited. <p>The Committee has the discretion to adjust targets or weightings for any exceptional events that may occur during the year.</p> <p>The Committee intends to provide full prospective and retrospective disclosure of Group performance targets. The Committee is of the view that the Divisional performance targets are commercially sensitive both at the time of setting the targets and at the point when they are measured and the bonus determined. It is therefore the opinion of the Committee that these Targets cannot be disclosed for a material period of time.</p>

Objective and link to strategy	Operation	Maximum opportunity	Performance condition and assessment
Long-Term Incentive Plan			
No Plan available for new grants during the Policy Period.		The maximum number of shares approved by shareholders under The Berkeley Group Holdings plc 2011 Long-Term Incentive Plan has been granted. Therefore, no additional awards can be made under this Plan (unless on cessation of employment by an existing participant shares become available).	
Policy: Upper decile			
		No other Long Term Incentive Plan arrangement will be implemented by the Company during the Policy Period.	
Pension			
To provide competitive levels of retirement benefit.	The Company's policy is either to provide a contribution to a pension arrangement or provide payments in lieu of pension.	The maximum contribution or payment in lieu is 25% of salary.	None.
Policy: Lower quartile			
	Messrs Pidgley, Perrins, Fry and Whiteman currently receive payments in lieu of pension.	The annual rate for each Executive Director is set out in the statement of implementation of remuneration policy for 2014/15 on page 77.	
	Messrs Simpkin and Ellis currently receive a pension contribution.		
	All payments in lieu of pension are subject to income tax and national insurance.		
	Pension is not included in salary figures for the purposes of determining any other benefit entitlement.		
Shareholding requirement			
To ensure that Executive Directors' interests are aligned with those of shareholders over a longer time horizon.	The Committee operates a system of shareholder guidelines to encourage long-term share ownership by the Executive Directors.	In the case of the Group Chairman this is 400% of base salary, for other Executive Directors 200% of base salary. The Committee retains the discretion to increase shareholding requirements.	None.
Policy: Market practice			
	This should be achieved within five years of appointment for Executive Directors.	Shareholdings as at 30 April 2014 are provided on page 75.	

NOTES TO THE FUTURE POLICY TABLE**RATIONALE BEHIND SELECTION OF PERFORMANCE MEASURES AND TARGETS FOR BONUS PLAN**

The annual bonus plan measures provide direct alignment with the short to medium-term strategic objectives of the Company:

- Two Group performance targets** – The balance of operating a return based measure (ROE) and a value based measure (Land Bank Growth) should ensure that there is a balance between incentivising the Executive Directors to provide a sustainable ongoing level of return to shareholders whilst ensuring the long-term sustainability of the Company, as follows:
- the Bonus Plan incentivises the delivery of increased profits in order to achieve ROE at the same time as growing the land bank. It should be noted that the ROE will be set from a challenging base as the Company has not taken any land write downs as is the case with the majority of its competitors;
 - ROE is a compound measure and therefore if shareholder funds are reinvested and not paid as dividends, earnings growth will be compounded to achieve the targets;
 - the fact that the Bonus Plan targets also include growth in the land bank value, means that Executive Directors are encouraged to acquire land in the current market on favourable terms as well as maximise sustainable profit growth;
 - ROE as a measure highlights the inefficiency of retaining surplus cash on the balance sheet. In order to deliver the targeted level of returns, this will encourage the Company to invest or return cash to shareholders.

Level of targets – The Committee wishes to incentivise the Executive Directors to achieve a good level of returns to shareholders whilst ensuring the long-term sustainability of the Company. Therefore the targets set have to take into account an appropriate level of risk. The Bonus Plan allows a close tailoring by the Committee of the performance conditions to the budget and performance of the Company for each financial year.

Divisional PBT targets – The Divisional targets were chosen to ensure the Divisional Directors are appropriately focused on the profitability of their respective Divisions which ultimately enhance the delivery of returns to shareholders. The targets are set by the Committee at the beginning of the financial year at a level which is challenging taking into account the potential level of bonus payments, the market, development availability and other relevant issues.

RECOVERY PROVISIONS

Under the terms of the Bonus Plan, there is a risk adjustment mechanism built in so that should threshold levels of performance not be achieved, 50% of the balance of the participant's account will be forfeited.

No recovery provisions apply to salary, benefits and pension.

CHANGES TO REMUNERATION POLICY FROM PREVIOUS POLICY

There have been no changes to the operation, maximum opportunity or performance measures in relation to the salary, annual bonus, pension and other benefits.

DIFFERENCES IN REMUNERATION POLICY FOR ALL EMPLOYEES

The Group seeks to establish remuneration packages that will attract, retain and motivate high quality employees. Salary and benefit packages for all employees are linked to both individual and business performance.

The Company's business comprises of a number of operating Divisions. The annual and longer term cash based compensation arrangements for these other senior employees of the Company are therefore linked to the performance of the relevant Division for which they work. Some elements of the cash bonus plans are annual while other elements are deferred to ensure long-term consistent delivery by each Division. It is the view of both the Committee and the Board as a whole that these arrangements are very effective at ensuring the delivery of Divisional performance for which these senior employees are responsible.

All other eligible employees participate in bonus plans, which, together with salary reviews linked to business performance, enable all employees to share in the success of the Group.

ELEMENTS OF PREVIOUS POLICY THAT WILL CONTINUE TO APPLY

The following subsisting awards will continue to operate on the terms and conditions set out in the relevant plan rules, as approved by shareholders in relation to the 2009 LTIP and 2011 LTIP. Full details of the subsisting awards are set out in previous year's Committee Reports.

Awards under these arrangements do not form part of the ongoing remuneration policy; however payments may be made in the future subject to the achievement of the relevant performance conditions.

Awards granted under the Berkeley Group Holdings plc 2009 Long-Term Incentive Plan (2009 LTIP)			
The 2009 LTIP aligns Executive Director interests with those of shareholders by focusing on delivering sustainable superior returns to shareholders.	Approved by shareholders at the 2009 EGM and amended at the 2011 AGM. Further details on the 2009 LTIP are set out in the 2009 Notice of EGM and 2011 Notice of AGM.	Following shareholder approval on 15 April 2009, a maximum of 7,100,000 shares were capable of being granted under Part B of the 2009 LTIP. The grants under Part B of the 2009 LTIP will vest in two tranches, subject to certain conditions: <ul style="list-style-type: none">• 50% on 15 April 2015;• 50% on 15 April 2016. Shareholder approval was received at the 2011 AGM to amend the rules of the 2009 LTIP (covering both Part A and Part B) so that the terms of existing options granted can be adjusted in the event of the payment of a cash dividend or dividend in specie. This provides that where such a dividend is paid the adjustment will be a reduction in the exercise price of an option by the amount or value of the dividend provided that the exercise price can never be less than zero and a reduction will only be made to the exercise price of an option that is not then capable of exercise. Awards under Part A of the 2009 LTIP were all exercised in January 2014.	A total of 6,090,000 options are outstanding under Part B of the 2009 LTIP (held by Executive Directors and other senior employees) and no new awards will be granted. The grants under Part B of the 2009 LTIP are options which will vest subject to: <ul style="list-style-type: none">• continued employment to the relevant vesting date;• the satisfaction of the underpin condition that Net Assets Per Share are at least £9.00 at each of the vesting dates. The Committee determined to increase the Net Asset Per Share underpin for the vesting of options from £5.94 set at the date of grant to £9.00 and to require that this underpin be met at each of the vesting dates.

RATIONALE BEHIND SELECTION OF PERFORMANCE MEASURES AND TARGETS

The 2009 LTIP and 2011 LTIP measures were selected as the Committee believes they provide direct alignment with the long-term strategic objectives of the Company and shareholders. The 2011 LTIP plan aims to maximise returns within a given level of risk, disciplining the business to make significant returns to shareholders in cash over a sustained period and balances investment and returns to shareholders.

2011 LTIP PERFORMANCE TARGETS

The following table sets out the cumulative distributions, the relevant dates and the consequences of failing to deliver these distributions by these relevant dates:

Required date	Cumulative distribution (on or before required date)	Consequences of failing to make the cumulative distributions on or before the required date
30 September 2015	£568.7m	Options lapse, no shares vest and 2011 LTIP terminates on 1 October 2015.
30 September 2018	£1,136.1m	<p>Where the cumulative distributions on or before 30 September 2018 is less than £1,136.1m, the following process determines the number of shares vesting:</p> <ol style="list-style-type: none"> The number of shares capable of vesting is calculated on the level of dividend paid and capable of being paid as at 30 September 2018. The exercise price of the shares capable of vesting is set by reducing the original exercise price of £13 by the level of cumulative dividend actually paid on or before 30 September 2021. No shares will vest until the end of the 2011 LTIP period on 30 September 2021 subject to the participant's continued employment at this date.
30 September 2021	£1,703.6m	The process is the same as above with the relevant date being 30 September 2021.
	£1,703.6 m paid in full prior to 30 September 2021 (including £13/share in dividends)	<p>In circumstances where £1,703.6 m of cumulative distributions (including £13/share in dividends) are made prior to 30 September 2021 awards shall vest in full.</p> <p>Participants will be able to exercise their awards of options from the date this cumulative target is met and may also sell any shares necessary to pay their tax liability on exercise.</p> <p>In respect of the balance of their shares participants shall only be able to sell a maximum of 10% p.a. of this balance until 30 September 2021 at which date the sale restrictions shall lapse.</p>

DIRECTORS' REMUNERATION REPORT continued

ILLUSTRATIONS OF APPLICATION OF REMUNERATION POLICY

The graphs below seek to demonstrate how pay varies with performance for the Executive Directors based on our stated remuneration policy for 2014/15 financial year. Whilst the historic long-term incentive plans do not form part of the future remuneration policy for 2014/15, the Executive Directors are working towards the achievement of the relevant targets and they have therefore been included in the illustrations below.

Key: ■ Fixed ■ Annual variable ■ Multiple reporting period

Assumptions used in determining the level of pay-out under given scenarios are as follows:

Element	Minimum	On-target	Maximum
Fixed Elements			
	Fixed elements do not vary with performance and comprise:		
	<ul style="list-style-type: none"> • 2014/15 base salary • Estimated benefits for 2014/15 • Pension (or cash in lieu of) contributions. 		
Annual Variable Element			
Bonus Plan	0%	25% of maximum award ^{1,2}	50% maximum award ¹
Annual cash element where performance measures relate to one financial year			
Multiple Reporting Period Elements			
Bonus Plan	0%	25% of maximum award ^{1,2}	50% maximum award ¹
Deferred element where performance measures relate to more than one financial year			
2011 LTIP	0%	50% vesting ³	100% vesting ³
2009 LTIP Part B	0%	50% vesting ⁴	100% vesting ⁴

Notes

1. The total under all elements of the Bonus Plan is a maximum of 175%-300% of salary p.a. dependent upon Executive Director.
2. A level of 50% vesting for 'on-target' performance reflects the mid-point of the performance range under the Bonus Plan Group performance matrix and PBT Divisional targets. See page 78 for more details.
3. The 2011 LTIP is a one-off award granted over a 10 year period therefore we have used one tenth of the IFRS 2 fair value of the options at the date of grant as the Maximum and 50% of this value for On-Target.
4. The 2009 LTIP Part B is a one-off award which vests over 6 and 7 years (50% in 2015 and 50% in 2016). Therefore we have used one sixth and one seventh of IFRS 2 fair values of the options at the date of grant as the Maximum and 50% of this value for On-Target.
5. In accordance with the Regulations, no allowance has been made for share price appreciation.

FUTURE POLICY – NON-EXECUTIVE DIRECTORS

The table below sets out the key elements of the policy for Non-executive Directors:

Objective and link to strategy	Operation	Maximum	Performance conditions and assessment
To attract Non-executive Directors with the requisite skills and experience to contribute to the strategy of the Company and to review its implementation.	All Non-executive Directors have specific terms of engagement and their remuneration is determined by the Board within the limits set by the Articles of Association. Each Non-executive Director receives a fee which relates to membership of the Board and additional fees are paid for Committee Chairmanship. In exceptional circumstances, fees may also be paid for additional time spent on the Company's business outside of the normal duties.	Current fee levels are set out in the statement of implementation of remuneration policy on page 79. In general fee rises will be limited to the level provided to employees of the Company as a whole.	N/A
The Board reviews the fees of the Non-executive Directors annually taking into account the following factors:	In setting fees, the Board looks at the upper quartile fee levels of companies of broadly similar size and complexity, in particular those companies within the comparator group and those in the FTSE 250.	On an annual basis the Board will review the comparator groups to ensure they appropriately reflect the Company's size, operations and business complexities.	
<ul style="list-style-type: none"> • the workload and level of responsibility of the Non-executive Directors under the changing corporate governance expectations of shareholders and their representative bodies; • the current market rate for fees for Non-executive Directors based on the comparators used for the Executive Directors. 	Changes are effective from 1 May each year.		
The Company has a shareholding requirement for Non-executive Directors, linked to net fee they receive from the Company. This is equal to 100% of net fees. This should be achieved within three years of appointment for Non-executive Directors.			

Non-executive Directors cannot participate in any of the Company's share incentive plans or performance based plans and are not eligible to join the Company's pension scheme.

APPROACH TO RECRUITMENT REMUNERATION

The Committee's approach to recruitment remuneration is to pay no more than is necessary to attract candidates of the appropriate calibre and experience needed for the role. The remuneration package for any new recruit would be assessed following the same principles as for the current Executive Directors.

The Committee is mindful that it wishes to avoid paying more than it considers necessary to secure the preferred candidate and is aware of guidelines and shareholder sentiment regarding one-off or enhanced short or long-term incentive payments made on recruitment and the appropriateness of any performance conditions associated with an award.

DIRECTORS' REMUNERATION REPORT continued

Where an existing employee is promoted to the Board, the policy would apply from the date of promotion but there would be no retrospective application of the policy in relation to subsisting incentive awards or remuneration arrangements. Accordingly, prevailing elements of the remuneration package for an existing employee would be honoured and form part of the ongoing remuneration of the employee. These would be disclosed to shareholders in the following year's Annual Report on Remuneration.

The table below summarises our key policies with respect to recruitment remuneration:

Element	Policy
Base salary and benefits	<p>The salary level will be set taking into account the responsibilities of the individual, experience and the salaries paid to similar roles in comparable companies. The Committee will apply the policy set out on salaries for the current Executive Directors in the remuneration policy table.</p> <p>The Executive Director shall be eligible to receive benefits in line with Berkeley's benefits policy as set out in the remuneration policy table.</p>
Pension	<p>The Executive Director will be entitled to receive contributions into a pension plan or alternatively to receive a supplement in lieu of pension contributions in line with Berkeley's pension policy as set out in the remuneration policy table.</p>
Annual bonus	<p>The Executive Director will be eligible to participate in the Bonus Plan as set out in the remuneration policy table.</p> <p>The maximum potential opportunity under this Plan is 300% of salary.</p>
Long-Term incentives	<p>On recruitment, a new Executive Director will be eligible to participate in the 2011 LTIP set out in the "Elements of previous policy that will continue to apply" section, provided awards are available under the Plan and the total number of awards granted to all participants does not exceed 19,616,503 shares under subsisting options as agreed with shareholders at the 2011 AGM.</p>
Maximum Level of Variable Remuneration	<p>300% of salary under the Bonus Plan and any available awards under the 2011 LTIP provided awards are available under the Plan and the total number of awards granted to all participants does not exceed 19,616,503 shares under subsisting options.</p>
Share buy-outs	<p>The Committee's policy is not to provide buy-outs as a matter of course. However, should the Committee determine that the individual circumstances of recruitment justified the provision of a buy-out, the value of any incentives that will be forfeited on cessation of a director's previous employment will be calculated taking into account the following:</p> <ul style="list-style-type: none"> • the proportion of the performance period completed on the date of the director's cessation of employment; • the performance conditions attached to the vesting of these incentives and the likelihood of them being satisfied; • any other terms and condition having a material effect on their value ('lapsed value'); <p>The Committee may then grant up to the equivalent value as the lapsed value, where possible, under the Company's incentive plans. To the extent that it was not possible or practical to provide the buyout within the terms of the Company's existing incentive plans, a bespoke arrangement would be used.</p>
Relocation policies	<p>Where the new Executive Director is relocated from one work-base to another, the Company may provide one-off/on-going as part of the Director's relocation benefits compensation to reflect the cost of relocation for the Executive in cases where they are expected to spend significant time away from their country of domicile.</p> <p>The level of the relocation package will be assessed on a case by case basis but will take into consideration any cost of living differences/housing allowance/schooling.</p>

SERVICE CONTRACTS

Details of the service contracts or letters of appointment for the Directors are as follows:

A Li	2 September 2013	Renewable annually on 1 May	n/a
A Myers	6 December 2013	Renewable annually on 1 May	n/a

All service contracts and letters of appointments are available for viewing at the Company's registered office.

The Company's practice is to appoint the Non-executive Directors under letters of appointment, which are renewable annually on 1 May. They are subject to the provisions of the Articles of Association dealing with appointment and rotation every three years, however in accordance with the UK Corporate Governance code are subject to annual re-election.

When setting notice periods for Executive Directors, the Committee has regard for market practice and corporate governance best practice. Notice periods will not be greater than 12 months.

PAYMENTS FOR LOSS OF OFFICE

When determining any loss of office payment for a departing Director the Committee will always seek to minimise the cost to the Company whilst complying with the contractual terms and seeking to reflect the circumstances in place at the time. The Committee reserves the right to make additional payments where such payments are made in good faith in discharge of an existing legal obligation (or by way of damages for breach of such an obligation); or by way of settlement or compromise of any claim arising in connection with the termination of an Executive Director's office or employment.

DIRECTORS' REMUNERATION REPORT continued

The table below sets out the Company's termination policy in respect of Executive Director contracts for each element of total remuneration. For each element the table also sets out the boundaries of Committee discretion to apply flexibility to the default position.

Element	Approach	Application of Committee discretion
Base salary and benefits	<p>In the event of termination by the Company, there will be no compensation for loss of office due to misconduct or normal resignation.</p> <p>In other circumstances, Executive Directors may be entitled to receive compensation for loss of office which will be a maximum of twelve months salary.</p> <p>Such payments will be equivalent to the monthly salary and benefits that the executive would have received if still in employment with the Company. Executive Directors will be expected to mitigate their loss within a twelve month period of their departure from the Company.</p>	<p>The Committee has discretion to make a lump sum payment in lieu.</p>
Pension	<p>Pension contributions or payments in lieu of pension contribution will be made during the notice period. No additional payments will be made in respect of pension contributions for loss of office.</p>	<p>The Committee has discretion to make a lump sum payment in lieu.</p>
Annual bonus	<p>Cessation of employment</p> <p>If a participant ceases to be employed by a Group Company for any reason an award that has not vested shall lapse unless the Committee in its absolute discretion determines otherwise for 'good leaver' reasons (including, but not limited to, injury, disability, ill health, retirement, redundancy or transfer of the business).</p> <p>If the Committee, determines that deferred awards held in a participant's plan account shall not lapse on cessation of employment, all deferred awards held in the participant's plan account shall vest immediately and the Committee shall determine:</p> <ul style="list-style-type: none"> (a) whether the measurement date for that plan year is brought forward to the date of cessation or remains at the end of the plan year; (b) whether a reduction is applied to the payment to take account the proportion of the plan year elapsed and the contribution to the Group. <p>If the Committee determines that the measurement date is the date of cessation, the Committee shall pro-rate the performance conditions to the date of cessation.</p> <p>Change of control</p> <p>On a change of control, all deferred awards held in a participant's plan account shall vest immediately and the Committee shall determine:</p> <ul style="list-style-type: none"> (a) that the measurement date is the date of the change of control; (b) whether a reduction is applied to the payment to take account the proportion of the plan year elapsed and the participant's contribution to the Group. <p>The Committee shall pro-rate the performance conditions to the measurement date.</p> <p>In the event of an internal reorganisation, the Committee may determine that awards are replaced by equivalent awards.</p>	<p>The Committee has the discretion to determine that an Executive Director is a good leaver.</p> <p>The Committee retains discretion to set the measurement date for the purposes of determining performance measurement and whether to pro-rate the contribution for that plan year.</p> <p>It should be noted that it is the Committee's policy only to apply such discretions if the circumstances at the time are, in its opinion, sufficiently exceptional, and to provide a full explanation to shareholders where discretion is exercised.</p> <p>The Committee retains discretion to pro-rate the contribution for that plan year.</p> <p>It is the Committee's policy in normal circumstances to pro-rate to time; however, in exceptional circumstances where the nature of the transaction produces exceptional value for shareholders and provided the performance targets are met the Committee will consider whether pro-rating is equitable.</p>
2009 LTIP Part B	<p>Cessation of employment</p> <p>If a participant ceases to be employed by a Group Company for any reason other than death, injury, ill-health, disability, retirement, the employing Company ceasing to be a Group Company or a transfer of the business or any other reason determined by the Committee, the participant's option shall lapse.</p> <p>For 'good leaver' reasons noted above, the number of shares under option capable of vesting will be calculated by pro-rating to the amount of the relevant vesting period completed on the date of cessation of employment. Awards will only vest at the end of the relevant vesting period subject to the satisfaction of the performance condition.</p> <p>The exercise price shall be adjusted for the payment of any cash dividend or dividend in specie in accordance with the plan rules.</p>	<p>The Committee has the discretion to determine that an Executive Director is a good leaver.</p> <p>The Committee will only use its general discretion to determine that an Executive Director is a good leaver in exceptional circumstances and will provide a full explanation to shareholders, if possible in advance, of the basis for its determination.</p>

Element	Approach	Application of Committee discretion
2009 LTIP Part B continued	Change of control	<p>The Committee have the discretion to determine how the performance condition taken into account on a change of control. The Board will only use this discretion in exceptional circumstances and will provide a full explanation to shareholders, if possible in advance, of the basis for its determination.</p> <p>The exercise price shall be adjusted for the payment of any cash dividend or dividend in specie to the date of the relevant transaction in accordance with the plan rules.</p> <p>In the event of an internal reorganisation, options shall not vest unless the Board consents and the Board may determine that options are exchanged for an option over a successor company's shares.</p>
2011 LTIP	Cessation of employment	<p>The treatment of 2011 LTIP awards is governed by the rules of the plan, as approved by shareholders at the 2011 AGM Meeting and the amendment approved at the 2012 AGM.</p> <p>For 'good leaver' reasons noted above, the Committee will determine the number of shares capable of vesting taking into account dividends paid per share and share buy-backs as at the termination date and the number of shares under option held by the participant.</p> <p>The exercise price shall be adjusted for any dividends paid in accordance with the plan rules.</p>
	Change of control	<p>An option will become exercisable in full immediately prior to a change of control of the Company. Court sanction of a scheme of arrangement or the disposal of all, or substantially all, of the assets of the Company and its subsidiaries.</p> <p>The exercise price shall be adjusted for any dividends made to the date of the relevant transaction in accordance with the plan rules.</p> <p>In the event of an internal reorganisation, options shall not vest unless the Committee consents and the Committee may determine that options are exchanged for an option over a successor company's shares.</p>
	Other contractual obligations	<p>No contractual provision agreed prior to 27th June 2012 that could impact quantum of the payment.</p>

CONSIDERATION OF EMPLOYMENT CONDITIONS ELSEWHERE IN THE COMPANY

In making annual pay decisions the Committee also gives consideration to pay and employment conditions in the rest of the Group, including any base salary increases awarded. The Committee is provided with data on the remuneration structure for management level tiers below the Executive Directors, and uses this information to ensure consistency of approach throughout the Company. No comparison metrics were used.

Although the Committee takes into account the pay and conditions of other employees, the Company did not consult with employees when drawing up the policy report.

CONSIDERATION OF SHAREHOLDER VIEWS

The Committee takes the views of the shareholders seriously and these views are taken into account in shaping remuneration policy and practice. Shareholder views are considered when evaluating and setting remuneration strategy and the Committee commits to consulting with key shareholders prior to any significant changes to its remuneration policy.

Taxable benefits comprise a fully expensed company car or cash allowance alternative and medical insurance.

ANNUAL BONUS

In respect of the year under review, the Executive Directors' performance was carefully reviewed by the Committee and performance against the Bonus Plan targets is summarised below:

Executive Director	Maximum Annual Bonus	Weighting – % of maximum paid for Group Performance	Weighting – % of maximum paid for Divisional Performance	Annual Bonus Contribution to Plan Account for 2013/14 £'000	Annual Bonus Contribution to Plan Account for 2013/14 % of maximum
A W Pidgley	300%	100%	0%	2,400	100%
R C Perrins	300%	100%	0%	1,452	100%
N G Simpkin	220%	100%	0%	706	100%
G J Fry	175%	50%	50%	585	100%
K Whiteman	175%	50%	50%	550	100%
S Ellis	175%	50%	50%	550	100%

Assessment of Group performance condition

The matrix of targets against which performance has been assessed for the current year are set out below:

Performance Requirement Matrix		Land Bank Growth				
		<1%		1%	2%	3%
		0.0%	50.0%	62.5%	75.0%	87.5%
Return on Equity	<15.0%	0%	Bonus Plan Deduction	0%	0%	0%
	15.0%	50%	0%	25%	31%	38%
	16.0%	60%	0%	30%	38%	45%

	19.0%	90%	0%	45%	56%	68%
	20.0%	100%	0%	50%	63%	75%

Notes

1. The matrix shows the percentage of each of the performance requirements for a given level of performance and the corresponding percentage of the targeted maximum annual bonus potential that could be earned for 2013/14.
2. Straight line bonus vesting between points.
3. Return on Equity (ROE) is defined as profit before tax divided by average shareholders' funds.
4. Land Bank Growth is defined as the annual percentage increase in the development margin in the land bank.

DIRECTORS' REMUNERATION REPORT continued

Actual performance against the maximum targets for 2013/14 are set out below, along with the targets and actual performance for the preceding three years of the five year plan:

Bonus Plan year	Return on Equity		Land Bank Growth	
	Maximum Target	Actual	Maximum Target	Actual
2013/14	20.0%	27.5%	5.0%	5.7%
2012/13	18.5%	22.4%	10.0%	10.5%
2011/12	16.5%	21.2%	8.0%	12.0%
2010/11	13.5%	15.3%	10.0%	13.1%

For the 2013/14 financial year, the annual Bonus Plan contribution based on performance against the Group performance targets matrix equated to 100% of the maximum annual bonus subject to this condition.

Assessment of Divisional PBT performance condition

Division	Percentage of bonus element paid for threshold performance	Percentage of bonus element paid for maximum performance	Level of actual performance as a percentage of the maximum performance target	Percentage of bonus element earned following assessment against the performance target
St George	0%	100%	100%	100%
Berkeley Homes Urban Renaissance	0%	100%	100%	100%
St James Group	0%	100%	100%	100%

The Divisional PBT targets are set at the beginning of the financial year at a level which is challenging taking into account the potential level of bonus payments, the market, the developments under management and other relevant issues. Disclosure of PBT targets are considered to be commercially sensitive as the disclosure of such details could be detrimental to the Company's future strategic plans.

For the 2013/14 financial year, the annual Bonus Plan contribution based on performance against the Divisional PBT targets equated to 100% of maximum annual bonus subject to this condition.

The Committee exercised no discretion in determining incentive outcomes for the year ended 30 April 2014.

Bonus earned but deferred under the Bonus Plan

Under the Bonus Plan, the earned bonus for the year is added to each individual Director's plan account. 50% of the balance on the plan account at the end of the financial year is released and 50% deferred. See remuneration policy table on page 59 for details on the operation of the Bonus Plan.

The deferred balances on each Director's plan account are set out below.

Executive Director	a. Plan account brought forward	b. Plan account brought forward ⁽¹⁾	c. Contribution into plan account for the financial year 2013/14	d. 	321,841	7,861	6,243	14,104	7,052	3,121	3,931	7,052	307,417

Notes

1. Converted at a share price of £22.94 at 30 April 2014 plus £0.59 dividend paid 27 September 2013 plus £0.90 dividend paid 17 January 2014.

2. Converted at a share price of £22.94 at 30 April 2014.

There is a risk adjustment mechanism built into the operation of the Bonus Plan. If the threshold levels of ROE, Land Bank Growth or Divisional PBT are not met for any financial year during the five years of operation of the Bonus Plan part of a participant's plan account will be forfeited.

LONG-TERM INCENTIVES

No LTIPs with performance conditions related to the 2013/14 financial year vested during the year.

TOTAL PENSION ENTITLEMENTS (AUDITED)

No Executive Directors participate in any defined benefit arrangements. For reference, Nick Simpkin and Sean Ellis are members of a defined contribution scheme, and Greg Fry was until June 2013. They received contributions equal to 15% of salary.

No amounts were paid into pension arrangements in respect of Tony Pidgley, Rob Perrins and Karl Whiteman during the year ended 30 April 2014, who instead received payments in lieu of a pension contribution from the Company during the year (2013/14: percentages of salary 17%, 17% and 15% respectively). Greg Fry received payments in lieu of a pension contribution from the Company from June 2013 onwards at 15% of salary.

SCHEME INTERESTS AWARDED IN 2013/14 FINANCIAL YEAR (AUDITED)

No awards were made to the Executive Directors in the year under the incentive arrangements.

PAYMENTS TO PAST DIRECTORS (AUDITED)

No payments to past Directors were made during the year.

PAYMENTS FOR LOSS OF OFFICE (AUDITED)

No payments for loss of office were made during the year.

DIRECTORS' REMUNERATION REPORT continued

DIRECTORS' SHAREHOLDING AND SHARE INTERESTS (AUDITED)

The Company has a shareholding requirement for both Executive and Non-executive Directors, linked to base salary or net fee they receive from the Company. In the case of the Group Chairman this is 400% of base salary, for other Executive Directors 200% of base salary and for the Non-executive Directors 100% of net fees. This should be achieved within five years of appointment for Executive Directors and three years of appointment for Non-executive Directors.

Using the Company's closing share price of £22.94 on 30 April 2014, compliance with these requirements was as follows:

Director	Obligation (% base salary/NED net fees)	% base salary/NED net fees at 30 April 2014	Achievement at 30 April 2014

Notes

1. Beneficial interests include shares held directly or indirectly by connected persons.
2. Please see the description of 2009 LTIP Part B and 2011 LTIP awards in the 'elements of previous policy that will continue to apply' section on pages 61 to 62.
3. 2009 LTIP Part B option exercise price £6.76 at 30 April 2014.
4. 2011 LTIP option exercise price £11.36 at 30 April 2014.

2009 LTIP PART A

The balance of the shares originally awarded under the 2004(b) LTIP (i.e. 3/12 of the shares), totalling 5,330,340 shares, were replaced by options with an exercise price of £3.00 per share granted under the 2009 LTIP. This new option was identified as Part A of the 2009 LTIP. These options were awarded on 29 June 2009, at which time the Element 2 awards under the 2004 (b) LTIP were surrendered.

During the year, the 4,441,950 options outstanding under the 2009 LTIP Part A vested and were exercised on 31 January 2014 by A W Pidgley, R C Perrins and G J Fry, as set out below.

These options represent an incentive earned by the Executive Directors over the last 10 years (2004 – 2014).

Executive Director	Type of award	Number of Options Over Shares	Exercise Price of Exercised Options	Share Price on Date of Exercise	Gain on Exercise £'000
A W Pidgley	2009 LTIP Part A	2,842,848	£1.36	£25.83	69,564
R C Perrins	2009 LTIP Part A	1,066,068	£1.36	£25.83	26,087
G J Fry	2009 LTIP Part A	533,034	£1.36	£25.83	13,043

Notes

1. The original exercise price was adjusted from £3.00 to £1.36 to reflect the payment of dividends during the vesting period.

There are no options vested but unexercised at 30 April 2014.

DILUTION

The 2009 LTIP and 2011 LTIP were special arrangements, approved by shareholders at the EGM in April 2009 and AGM in September 2011 respectively. In considering dilution under the 2011 LTIP the Committee took account of the long term nature of the plan which extends beyond the length of normal incentive plans.

In addition, the Committee took into account, after the priority return of £1.7 billion (£13 per share), representing 183% of Net Assets at 30 April 2011, that the dilution on existing shareholders until the hurdle return has been achieved will have no effect and the dilution will only have effect on the value created above the priority return of £1.7 billion.

PERFORMANCE AND PAY

The graph below shows the Company's performance, measured by total shareholder return (TSR), compared with the performance of the FTSE250, the FTSE All Share and the Company's remuneration comparator group. The Company considers these the most relevant indices for total shareholder return disclosure required under these Regulations.

Notes

1. Total shareholder return ("TSR") is a measure showing the return on investing in one share of the Company over the measurement period (the return is the value of the capital gain and reinvested dividends). This calculation is then carried out for the relevant indices and constituents of the comparator group.

GROUP CHAIRMAN AND MANAGING DIRECTOR REMUNERATION OVER PAST 5 YEARS

The table below shows the remuneration of the Group Chairman and Managing Director for each of the financial years shown above. Given the nature of the roles of A W Pidgley and R C Perrins, the table below provides this information for both individuals.

Year	Single figure of total remuneration (£'000)			Multiyear incentive vesting awards (as % maximum opportunity)
	Group Chairman	Managing Director	Annual bonus pay-out (as % maximum opportunity)	
2013/14	3,757	2,271	100%	
2012/13	3,638	2,198	100%	See Note 3
2011/12	2,799	1,692	100%	
2010/11	2,033	1,226	100%	n/a
2009/10	2,406	1,127	100%	n/a

Notes

1. Single figure of total remuneration for each year has been calculated in accordance with the Regulations.
2. From 2010/11 onwards the annual bonus pay-out figures represent annual Company contributions under the Bonus Plan.
3. 2011/12, 2012/13 and 2013/14 multiyear vesting awards represent deferred awards that were released during the year under the Bonus Plan. In accordance with the Bonus Plan rules the Company's contribution is earned based on the satisfaction of the annual performance conditions. Part of the Company contribution is provided as a deferred award. 100% of these deferred awards will be paid out unless there has been forfeiture during the deferral period and subject to continued employment at the date of release. At the year ended 30 April 2014 there has not been a forfeiture event under the Bonus Plan.

PERCENTAGE CHANGE IN GROUP CHAIRMAN'S AND THE MANAGING DIRECTOR'S REMUNERATION

The table below compares the percentage increase in the Group Chairman's and Managing Director's pay (including salary, taxable benefits and annual bonus) between 2012/13 and 2013/14, with the average change for the wider employee population. The Company considers the full-time employee population, excluding the Main Board, to be an appropriate comparator group and the most stable point of comparison:

	2012/13 to 2013/14 year on year change (%)		
	Group Chairman	Managing Director	Group employees
Base salary	2.6%	3.0%	5.3%
Taxable benefits	22.4%	2.9%	4.6%
Annual bonus	2.6%	3.0%	3.6%

RELATIVE IMPORTANCE OF SPEND ON PAY

The table below sets out the relative importance of spend on pay in the 2013/14 and 2012/13 financial years compared with distributions to shareholders.

Item	2013/14 (£m)	2012/13 (£m)	% change
Remuneration of Group employees (including Directors)	142	97	46%
Distributions to shareholders	195	20	875%

STATEMENT OF IMPLEMENTATION OF REMUNERATION POLICY IN THE FOLLOWING FINANCIAL YEAR

EXECUTIVE DIRECTORS

The remuneration policy and its implementation for the forthcoming financial year is summarised below:

SALARY

The salaries for 2014/15 are set out below:

Executive Director	2013/14 Salary £'000	2014/2015 Salary £'000	% change	FTSE 250 £'000		
	Lower Quartile	Median		Lower Quartile	Median	Upper Quartile
A W Pidgley	800	825	3.1	424	502	590
R C Perrins	484	500	3.3	436	507	587
N G Simpkin	321	331	3.1	284	334	391
G J Fry	334	344	3.0	255	327	375
K Whiteman	314	324	3.2	255	327	375
S Ellis	314	324	3.2	255	327	375

The increases agreed by the Committee for the Executive Directors reflects the Committee's policy of increasing individual Director's salaries over time to reflect their experience, performance and the performance of the Group. In reviewing the salaries of the Executive Directors, the Committee has also taken account of the employment conditions and salary increases awarded to employees throughout the Group, which were on average 6.1% this year.

BENEFITS AND PENSION

No changes are proposed to benefits or pension in 2014/15.

BONUS PLAN

The maximum bonus potentials for the year ending 30 April 2015 are set out below:

Executive Director	A W Pidgley	R C Perrins	N G Simpkin	G J Fry	K Whiteman	S Ellis
Maximum Bonus (% of salary)	300%	300%	220%	175%	175%	220%

Key features of the Bonus Plan

See remuneration policy table on page 59 for details on the operation of the Bonus Plan.

Performance conditions

The bonus payable to each of the Group Chairman, Group Managing Director and Group Finance Director will be determined by reference to the Group performance condition. For the Divisional Directors, 50% of the potential bonus payable will be determined by reference to the Group performance condition and 50% by reference to the Divisional PBT performance condition.

Group performance condition

The ROE maximum performance condition for the year ending 30 April 2015 has been increased from 20% to 25%. The maximum performance condition for land bank growth remains at 5%.

The following table sets out the performance conditions for the Bonus Plan for the year ended 30 April 2015:

Performance Requirement Matrix		Land Bank Growth						
		<0%	0.0%	1.0%	2.0%	3.0%	4.0%	5.0%
		0.0%	50.0%	60.0%	70.0%	80.0%	90.0%	100.0%

	23.0%	80%		0%	40%	48%	56%	64%
	24.0%	90%		0%	45%	54%	63%	72%
	25.0%	100%		0%	50%	60%	70%	80%
								100%

Notes

1. The matrix shows the percentage of each of the performance requirements for a given level of performance and the corresponding percentage of the targeted maximum annual bonus potential that could be earned for 2014/15.

2. Straight line bonus vesting between points.

3. Return on Equity (ROE) is defined as profit before tax divided by average shareholders' funds.

4. Land Bank Growth is defined as the annual percentage increase in the development margin in the land bank.

Divisional PBT performance condition

The Divisional PBT targets are set at the beginning of the financial year at a level which is challenging taking into account the potential level of bonus payments, the market, development availability and other relevant issues. It is the view of the Committee that the disclosure of these targets in advance would provide the Company's competitors with an unfair advantage. However the Committee may in the future provide retrospective disclosure to allow shareholders to judge the level of bonus actually earned against the relevant Division's performance.

LONG-TERM INCENTIVES

No changes are proposed to the Company's long-term incentive arrangements in 2014/15. The operation of the historic 2009 and 2011 LTIP arrangements are set out in the Director's Remuneration Policy section on pages 61 to 62.

NON-EXECUTIVE DIRECTORS

The following table sets out the fee rates for the Non-executive Directors in the year ended 30 April 2014 and those rates which will apply in the year ending 30 April 2015:

	2013/14	2014/15	% change
Deputy Chairman and SID fees	£103,000	£106,000	2.9%
Basic Fee	£56,500	£58,500	3.5%
Additional fee for chairmanship of Audit and Remuneration Committee	£12,500	£12,500	-

CONSIDERATION BY THE DIRECTORS OF MATTERS RELATING TO DIRECTOR'S REMUNERATION

MEMBERS OF THE COMMITTEE

The committee currently comprises three Independent Non-executive Directors, Glyn Barker (Chairman), Sir John Armitt and Andy Myers.

Glyn Barker (Chairman) and Sir John Armitt were members of the committee at 30 April 2014 and Andy Myers was appointed to the Committee on 1 May 2014.

The members of the Committee have no personal financial interest other than as shareholders in matters to be decided, no potential conflicts of interest arising from cross Directorships and no day-to-day involvement in the running of the business.

Director	Number of meetings during financial year	Number of meetings attended
Glyn Barker	2	2
Sir John Armitt	2	2

ROLE OF THE COMMITTEE AND ACTIVITIES

The key responsibilities of the Committee are to:

- determine and agree with the Board the broad policy for the remuneration of the Executive Directors. This includes salary, bonus plans, share options, other share based incentives and pensions;
- determine the performance conditions for the Bonus Plan operated by the Company and approve the total annual payments made under this Plan;
- determine all share incentive plans for approval by the Board and shareholders;
- take into account the views of shareholders when determining plans under the remuneration policy;
- ensure that the contractual terms on termination, and any payments made, are fair to the individual and the Company and that failure is not rewarded;
- note annually the remuneration trends and any major changes in employee benefit structures across the Company or Group.

The Committee has formal terms of reference which describes its full remit. This can be downloaded from the section dealing with Investor Relations on the Berkeley website (www.berkeleygroup.co.uk).

The Committee's activities during the 2013/14 financial year included:

Meeting	Items discussed
June 2013	Draft Remuneration Report for the year ended 30th April 2013 Pay review for the Group for the year ended 30th April 2013
March 2014	Executive Remuneration Benchmarking report New Directors Remuneration regulations and changes to Remuneration Report

DIRECTORS' REMUNERATION REPORT continued

ADVISORS TO THE COMMITTEE

The Committee is able to seek independent advice at the expense of the Company; no advice has been sought by the Committee during the year under review.

In determining the Executive Directors' remuneration for the year, the Committee consulted with the Group Chairman, Tony Pidgley, the Group Managing Director, Rob Perrins and the Group Finance Director, Nick Simpkin. No Director played a part in any discussion about his own remuneration.

In addition, the Committee had access to information on executive reward provided to the Board by PricewaterhouseCoopers LLP (PwC). PwC is a member of Remuneration Consultants Group and, as such, voluntarily operates under the code of conduct in relation to executive remuneration consulting in the UK.

During the year, the Company paid a retainer fee of £50,000 to PwC for services in relation to advice provided to the Board that was also used by the Committee.

KPMG have been the Company's auditors since December 2013 and have therefore audited these financial statements. Prior to this PwC were the Company's auditors and the Board reviewed the nature of the services provided during this time and was satisfied that no conflict of interest existed in the provision of these services.

STATEMENT OF VOTING AT GENERAL MEETING

The table below shows the advisory vote on the 2012/13 Remuneration Report at the AGM held on 2nd September 2013.

	Votes for	%	Votes against	%	Votes withheld
2012/13 Remuneration Report	85,537,828	89.57%	9,955,633	10.42%	216,649

Please note that the first votes on the Annual Report on Remuneration and the Director's Remuneration Policy are due to take place at the 2014 AGM.

The Directors' Remuneration Report has been approved by the Board.

By Order of the Board

GLYN BARKER**CHAIRMAN OF THE REMUNERATION COMMITTEE**

11 JULY 2014

The Directors submit their report together with the audited consolidated and company financial statements for the year ended 30 April 2014.

PRINCIPAL ACTIVITIES AND REVIEW OF THE BUSINESS

The Company is the UK holding company of a Group engaged in residential-led property development focusing on urban regeneration and mixed-use developments. The Company is incorporated and domiciled in England and Wales and is quoted on the London Stock Exchange.

The information that fulfils the requirements of the Strategic report can be found on pages 3 to 45 of the Annual Report which provide more detailed commentaries on the business performance during the year together with the outlook for the future. In addition, information in respect of the principal financial and operating risks of the business is set out on pages 20 to 23 of the Strategic Report.

TRADING RESULTS AND DIVIDENDS

The Group's consolidated profit after taxation for the financial year was £292.9m (2013: £209.7m). The Group's joint ventures contributed a profit after taxation of £12.1m (2013: loss of £1.3m).

An interim dividend of 90p per share was paid to shareholders on 17 January 2014. A further interim dividend of 90p per share is proposed, payable on 26 September 2014 to shareholders on the register on 22 August 2014.

POST BALANCE SHEET EVENT

On 30 May 2014, the Group exchanged contracts for the sale of a portfolio of ground rent assets for £99.8 million. The sale is expected to give rise to a non-recurring profit on disposal of approximately £80 million after transaction costs in the year ending 30 April 2015.

SHARE CAPITAL

The Company had 135,357,183 ordinary shares in issue at 30 April 2014 (2013: 134,857,183). No shares are held in treasury. Authority will be sought from shareholders at the forthcoming Annual General Meeting to renew the authority given at the 2013 Annual General Meeting for a further year, permitting the Company to purchase its own shares in the market up to a limit of 10% of its issued share capital.

Movements in the Company's share capital are shown in note 20 to the consolidated financial statements.

Information on the Group's share option schemes is set out in note 5 to the consolidated financial statements. Details of the Long-Term Incentive Schemes and Long-Term Incentive Plans for key executives are set out in the Remuneration Report on pages 56 to 80.

ARTICLES OF ASSOCIATION

The Articles of Association set out the basic management and administrative structure of the Company. They regulate the internal affairs of the Company and cover such matters as the issue and transfer of shares, Board and shareholder meetings, powers and duties of Directors and borrowing powers. In accordance with the Articles of Association, Directors can be appointed or removed by shareholders in a general meeting.

The Articles may only be amended by special resolution at a general meeting of shareholders. Copies are available by writing to the Company Secretary and are also open to inspection at Companies House.

DIRECTORS

The Directors of the Company and their profiles are detailed on pages 48 and 49. All of these Directors served throughout the year under review with the exception of Adrian Li, who was appointed on 2 September 2013, and Andy Myers, who was appointed on 6 December 2013. Alan Coppin stood down from the Board on 2 September 2013.

The Articles of Association of the Company require Directors to submit themselves for re-election every three years. In addition all Directors are subject to election at the first opportunity after their appointment to the Board. However, in accordance with the UK Corporate Governance Code all the Directors will offer themselves for re-election at the forthcoming Annual General Meeting, other than David Howell, who is standing down from the Board.

The Directors' interests in the share capital of the Company and its subsidiaries are shown at 11 July 2014:

	NUMBER OF ORDINARY SHARES HELD	% OF ISSUED CAPITAL	NATURE OF HOLDING

in the Remuneration Report on page 75. At 30 April 2014 each of the Executive Directors were deemed to have a non-beneficial interest in 106,799 (2013: 237,363) ordinary shares held by the Trustees of The Berkeley Group Employee Benefit Trust. The trustee of the Berkeley Group Holdings Employee Benefit Trust ("EBT") has agreed not to vote on any shares held in the EBT at any general meeting.

There were no contracts of significance during, or at the end of, the financial year in which a Director of the Company is, or was, materially interested, other than those set out in note 27 to the consolidated financial statements, the contracts of employment of the Executive Directors, which are terminable within one year, and the appointment terms of the Non-executive Directors, which are renewable annually and terminable on one month's notice.

DIRECTORS' INDEMNITIES

The Company's practice has always been to indemnify its Directors in accordance with the Company's Articles of Association and to the maximum extent permitted by law. Qualifying third party indemnities, under which the Company has agreed to indemnify the Directors, were in force during the financial year and at the date of approval of the financial statements, in accordance with the Company's Articles of Association and to the maximum extent permitted by law, in respect of all costs, charges, expenses, losses and liabilities, which they may incur in or about the execution of their duties to the Company, or any entity which is an associated company (as defined in Section 256 of the Companies Act 2006), or as a result of duties performed by the Directors on behalf of the Company or any such associated company.

SUBSTANTIAL SHAREHOLDERS

The Company has been notified of the following interests, pursuant to Rule 5 of the Disclosure Rules and Transparency Rules, as at 11 July 2014:

DIRECTORS' REPORT continued

DONATIONS

The Group made no political contributions (2013: £nil) during the year.

EMPLOYMENT POLICY

The Group's policy of operating through autonomous subsidiaries has ensured close consultation with employees on matters likely to affect their interests. The Group is firmly committed to the continuation and strengthening of communication lines with all its employees.

An Equal Opportunities Policy was introduced in 2001. Following periodic reviews (the most recent in September 2010) the policy is now an Equality and Diversity Policy with the aim of ensuring that all employees, potential employees and other individuals receive equal treatment (including access to employment, training and opportunity for promotion) regardless of their age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief (including lack of belief), sex and sexual orientation. It is the policy of the Group to support the employment of people with disabilities wherever practicable and to ensure, as far as possible, the training, career development and promotion opportunities are available to all employees. This policy includes employees who become disabled whilst employed by the Group.

All disclosures concerning diversity of the Group's Directors, senior management and employees (as required under the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013) are contained within the Strategic Report on pages 36 to 37.

SUSTAINABILITY

The Group considers its approach to sustainability, defined as the effective management of environmental, social and economic risks and opportunities facing the company, to be an integral part of managing its business. Our framework for the business, Our Vision, sets out our integrated approach to managing sustainability within the context of the wider aims for the business. This approach is outlined within the Strategic Report and more extensive information is available on Berkeley's website. We believe that this integrated approach demonstrates how sustainability is embedded within the day-to-day operations of our business.

We remain committed to enhancing the Group's high standards through continuous improvement. Our Sustainability Governance

Committee is responsible for setting the strategic objectives and the Main Board continues to monitor strategic development and progress against commitments and Key Performance Indicators. The Sustainability Working Group, comprising divisional executives and managers, is responsible for delivering these objectives and reviewing progress against targets.

GREENHOUSE GAS EMISSIONS

	2014
Scope 1 (tCO ₂)	1,941
Scope 2 (tCO ₂ e)	10,221
Scope 3 (tCO ₂ e)	9,662
Total (tCO ₂ e)	21,824
Emissions intensity (tCO ₂ e/person)	2.5

The Group has reported on greenhouse gas emissions for which it is responsible, as required under the Companies Act 2006 (Strategic Report and Directors' Reports) Regulations 2013. The emissions disclosed are aligned to the Group's financial reporting year, are considered material to its business and have the following parameters:

Scope 1 – direct emissions relating to office, sales and development site activities; and work-related travel in company owned vehicles;

Scope 2 – indirect emissions from electricity consumed for office, sales and development site activities;

Scope 3 – other indirect emissions relating to office, sales and development site activities; work related travel in leased and employee owned vehicles; business air travel; transmission and distribution losses of purchased electricity; and upstream emissions

Emissions include 50% of those resulting from the Group's joint ventures on the basis of its equity share.

The intensity ratio has been calculated using the total number of direct employees across the Group and the number of contractors working on our sites.

The GHG Protocol Corporate Accounting and Reporting Standard (revised edition), UK Government Environmental Reporting Guidelines 2013 and UK Government GHG Conversion Factors for Company Reporting 2013 have been used to calculate and report the Group's greenhouse gas emissions.

Further details on the methodology adopted can be found at berkeleygroup.co.uk/

HEALTH AND SAFETY

The Group considers the effective management of health and safety to be an integral part of managing its business. Accordingly, the Group Main Board continues to monitor the strategic development and audit the implementation by all divisions of their Occupational Health & Safety Management Systems to ensure that, both at Group and divisional level, they remain compliant with recognised established standards.

We remain committed to enhancing the Group's high standards through continuous improvement. Our Health & Safety Committee is responsible for setting the strategic objectives of the Group, and the Health & Safety Working Group, comprising divisional executives and managers, is responsible for delivering these objectives and reviewing progress against targets set for our established key performance indicators, reporting this quarterly to the Group Main Board.

TAKEOVER DIRECTIVE – AGREEMENTS

Pursuant to the Companies Act 2006, the Company is required to disclose whether there are any significant agreements that take effect, alter or terminate upon a change of control.

Change of control provisions are included as standard in many types of commercial agreement, notably bank facility agreements and joint venture shareholder agreements, for the protection of both parties. Such standard terms are included in Berkeley's bank facility agreement which contains provisions that give the banks certain rights upon a change of control of the Company. Similarly, in certain circumstances, a change of control may give Berkeley's joint venture partner, Prudential Assurance Company Limited, the ability to exercise certain rights under the shareholder agreement in relation to its St Edward Homes joint venture.

In addition, the Company's share schemes contain provisions which take effect upon change of control. These do not entitle the participants to a greater interest in the shares of the Company than that created by the initial grant of the award. The Company does not have any arrangements with any Director that provide compensation for loss of office or employment resulting from a takeover.

The remaining information required to be disclosed under the Takeover Directive can be found within notes 5 and 20 to the consolidated financial statements.

INDEPENDENT AUDITORS AND DISCLOSURE OF INFORMATION TO AUDITORS

Each of the persons who is a Director at the date of approval of this Annual Report confirms that:

- So far as the Director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- The Director has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

A resolution to appoint KPMG LLP as auditors to the Company will be proposed at the Annual General Meeting.

ANNUAL GENERAL MEETING

The Annual General Meeting of the Company is to be held at the Woodlands Park Hotel, Woodlands Lane, Stoke D'Abernon, Cobham, Surrey KT11 3QB at 11.00am on 1 September 2014. The Notice of Meeting, which is contained in a separate letter from the Group Chairman accompanying this report, includes a commentary on the business to be transacted at the Annual General Meeting.

SHARE CAPITAL STRUCTURE

The Company is compliant with DTR 7.2.6. and the information relating to the Company's share capital structure is included in the Directors' Report on page 81.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The Directors are responsible for preparing the Annual Report, the Remuneration Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the Group Financial Statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, and have prepared the Parent Company Financial Statements in accordance with United Kingdom Accounting Standards (United

Kingdom Generally Accepted Accounting Practice) and applicable law.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and the Company and of the profit or loss of the Group for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether IFRS as adopted by the European Union and applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the Group and Parent Company Financial Statements respectively; and
- prepare financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and the Group and to enable them to ensure that the financial statements and the Remuneration Report comply with the Companies Act 2006 and, as regards the Group financial statements, Article 4 of the IAS Regulation. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

DIRECTORS' RESPONSIBILITY STATEMENT

Each of the Directors, whose names and functions are listed on pages 48 to 49 confirm that, to the best of each person's knowledge:

- a. the Group financial statements, which have been prepared in accordance with IFRSs as adopted by the European Union, give a true and fair view of the assets, liabilities, financial position and profit of the Group; and

b. the Strategic Report, together with the Directors' report, includes a fair review of the development and performance of the business and the position of the Group, together with a description of the principal risks and uncertainties that it faces.

c. The Annual Report, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy.

GOING CONCERN

The Group's business activities together with the factors likely to affect its future development performance and position are set out in the Strategic Report. The financial position of the Group, its cash flows, liquidity position and borrowing facilities are all described in the Trading and Financial Review on pages 38 to 43.

The Group has significant financial resources and the Directors have assessed the future funding requirements of the Group, including the repayment of £1.7 billion to shareholders by 2021, and compared this to the level of committed loan facilities and cash resources over the medium term. In making this assessment consideration has been given to the uncertainty inherent in future financial forecasts and where applicable reasonable sensitivities have been applied to the key factors affecting the financial performance of the Group.

The Directors have a reasonable expectation that the Company has adequate resources to continue its operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

ON TRACK TO MEET OUR
AMBITIOUS TEN YEAR PLAN

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF THE BERKELEY GROUP HOLDINGS PLC

OPINIONS AND CONCLUSIONS ARISING FROM OUR AUDIT

1) OUR OPINION ON THE FINANCIAL STATEMENTS IS UNMODIFIED

We have audited the financial statements of The Berkeley Group Holdings plc for the year ended 30 April 2014 set out on pages 89 to 119.

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent company's affairs as at 30 April 2014 and of the Group's profit for the year then ended;
- the Group financial statements have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with UK Accounting Standards; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the Group financial statements, Article 4 of the IAS Regulation.

2) OUR ASSESSMENT OF RISKS OF MATERIAL MISSTATEMENT

In arriving at our audit opinion above on the financial statements the risks of material misstatement that had the greatest effect on our audit were as follows:

Carrying value of inventories and profit recognition (inventories: £2,481.2m, gross profit: £508.9m)

Refer to page 54 (Audit Committee statement), page 96 (accounting policy) and page 106 (financial disclosures)

The risk: The Group recognises profit on each sale by reference to the overall site margin, which is the forecast profit percentage for a site that may comprise multiple phases and can last a number of years. The recognition of profit is therefore dependent on the Group's estimate of future selling prices and build costs, which form the basis of the site forecast. Inventory represents the costs of land, materials, design and related production and site costs to date. It is held at the lower of cost and net realisable value, the latter also being based on the forecast for the site. As such errors in these forecasts can impact the assessment over the carrying value of inventories and gross profit.

Future selling prices are dependent on market conditions, which can be difficult to predict. Future build costs are subject to a number of variables including the accuracy of designs, market conditions in respect of materials and sub-contractor cost and construction issues. There is a risk that the actual revenue and costs are different to those forecast resulting in material misstatement of inventory and gross profit.

There is also a risk that costs are inappropriately recognised within inventories or the allocation of costs that relate to the whole site, such as land and infrastructure, is inappropriate across development phases, resulting in a material misstatement of inventory or gross profit.

Our response: Our audit procedures performed in this area included, amongst others:

Testing the Group's controls by checking approvals over reviewing and updating selling price and cost forecasts, setting budgets and authorising and recording of costs. We attended a selection of management's cost review meetings, to check that they are effectively challenging the costs incurred and forecast.

We inspected the site forecasts, on a sample basis, and challenged the assumptions for future costs and sales. This included comparing sales forecasts to sales made to date and to prices achieved on comparable local sales. We compared actual margins achieved to forecasts, to check the accuracy of the Group's forecasting process. We corroborated a sample of cost forecasts back to supplier agreements or tenders and considered allowance for cost increase included in these forecasts. We also agreed a sample of costs incurred to date to invoice and/or payment, including checking that they were allocated to the appropriate site and development phase, and met the definition of inventory costs.

For all significant new land acquisitions and a sample of other land acquisitions we inspected purchase contracts to understand the terms and any deferred or contingent payments. We re-performed the calculation of such amounts to check the amounts recorded. We considered any previous acquisitions to establish any changes in amounts recorded for related deferred or contingent payments and assessed the accuracy of these. Where a site was pre-development, we evaluated the reliance on planning and other third party actions to achieve the forecast, and considered the impact on carrying values.

We checked that the margin recognised in the year on any units sold was in line with the forecast site margin. We evaluated the sensitivity of the margin to a change in sales prices and costs and considered whether this indicated a risk of impairment.

We considered the adequacy of the Group's disclosures over inventory and the degree of judgement and estimation involved in arriving at the forecast and resultant profit.

Provisions (£57.1m)

Refer to page 54 (Audit Committee statement), page 96 (accounting policy) and page 107 (financial disclosures)

The risk: The Group holds provisions in respect of construction related liabilities that have arisen, or that prior claims experience indicates may arise, subsequent to the completion of certain developments. The determination and valuation of provisions is judgmental by its nature and there is a risk that the estimate is incorrect and the provision is materially misstated.

Our response: Our audit procedures in respect of this area included, amongst others:

Enquiring of management and inspecting board minutes and the risk register for actual and potential claims arising in the year, and challenging whether provisions are required for these claims. For all significant known issues and claims provided for we inspected third party correspondence where available and compared it to the provision held. We also discussed claims with legal counsel.

We inspected the calculation of the provision held. For known issues we challenged the cost forecast for work to be undertaken and, where possible, compared these to quotes to undertake the remediation. For claims that history indicated may arise, we evaluated settled issues and considered any differences in the development portfolio then and now, such as increasing complexity of construction, as evidence for the calculation of the provision.

We assessed each provision against the requirements of the relevant accounting standards and the Group's policy and assessed whether the Group's disclosures adequately disclose the potential liabilities of the Group.

Revenue recognition (£1,620.6m)

Refer to page 54 (Audit Committee statement), page 94 and 96 (accounting policy) and page 89 (financial disclosures)

The risk: It is the Group's policy to recognise 100% of revenue on property units when contracts are exchanged and the building work is physically complete, being the point at which the Group is satisfied it has discharged its obligations to the buyer. Contract exchange, including the payment of a deposit, may have occurred sometime in the past. However, the legal completion of the sale remains dependent on the receipt of final payment. The recognition of revenue is generally before legal completion, being the point at which the balance of the sale is paid for and title transfers, and as such is potentially more subjective than recognising at the latter point.

The risk is that the unit is not physically complete or that the buyer does not complete the purchase, as should either of these be the case the revenue should not be recognised.

Our response: Our audit procedures on these areas included, among others;

Detailed testing of controls over sales approval and sample testing of sales in the year with a particular focus on significant sales recorded close to the year-end where the final payment was not yet received.

We inspected the internal sign-off sheets to check that sales recorded in the year had gone through the Group's approval process for sale of properties and the paperwork provided by third parties who approve the sale of newly constructed buildings, including the Council of Mortgage Lender approval, which is required to sell new build properties.

For a sample of sales made in the year that were not legally complete at the year-end, we visited the sites around the year-end date to assess by physical inspection the extent to which building work was complete and the property was physically ready to be handed over to a buyer. After the year end, and up to the date of signing the audit report, we assessed whether final payments from buyers had been made and appeared as receipts in the bank statements. Where amounts were still outstanding we considered other information, such as correspondence agreeing later payments and reasons for this, in evaluating the recoverability of these amounts and appropriateness of related revenue recognition.

We have also considered the adequacy of the Group's disclosures in respect of the judgements taken in recognising revenue for property units prior to legal completion.

3) OUR APPLICATION OF MATERIALITY AND AN OVERVIEW OF THE SCOPE OF OUR AUDIT

The materiality for the Group financial statements as a whole was set at £18.0m, calculated using a benchmark of Group profit before taxation (of which it represents 4.7%) which we believe is the key benchmark used by members of the company in assessing financial performance.

We agreed with the audit committee to report to it all corrected and uncorrected misstatements we identified through our audit with a value in excess of £0.9m, in addition to other audit misstatements below that threshold that we believe warranted reporting on qualitative grounds.

Audits for Group reporting purposes were performed at key reporting components covering 93% of Group revenue; 95% of Group profit before taxation and 93% of Group total assets. Desktop reviews were performed on the remaining components.

The audits undertaken for Group reporting purposes at the key reporting components of the company were all performed to local materiality levels, which were set individually for each subsidiary and ranged from £2.6 million to £14.1 million. These audits were completed by the Group audit team.

4) OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion:

- the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006; and
- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF THE BERKELEY GROUP HOLDINGS PLC continued**

5) WE HAVE NOTHING TO REPORT IN RESPECT OF THE MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

Under ISAs (UK and Ireland) we are required to report to you if, based on the knowledge we acquired during our audit, we have identified other information in the annual report that contains a material inconsistency with either that knowledge or the financial statements, a material misstatement of fact, or that is otherwise misleading.

In particular, we are required to report to you if:

- we have identified material inconsistencies between the knowledge we acquired during our audit and the directors' statement that they consider that the annual report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Group's performance, business model and strategy; or
- the Audit Committee Report does not appropriately address matters communicated by us to the audit committee.

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules we are required to review:

- the directors' statement, set out on page 83, in relation to going concern; and
- the part of the Corporate Governance Statement on pages 50 to 53 relating to the company's compliance with the nine provisions of the 2010 UK Corporate Governance Code specified for our review.

We have nothing to report in respect of the above responsibilities.

SCOPE OF REPORT AND RESPONSIBILITIES

As explained more fully in the Directors' Responsibilities Statement set out on page 83, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. A description of the scope of an audit of accounts is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate. This report is made solely to the Company's members as a body and subject to important explanations and disclaimers regarding our responsibilities, published on our website at www.kpmg.com/uk/auditscopeukco2013a which are incorporated into this report as if set out in full and should be read to provide an understanding of the purpose of this report, the work we have undertaken and the basis of our opinions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 ACCOUNTING POLICIES

GENERAL INFORMATION

The Berkeley Group Holdings plc (the "Company") is a public limited company incorporated and domiciled in the United Kingdom. The address of its registered office is Berkeley House, 19 Portsmouth Road, Cobham, Surrey, KT11 1JG. The Company and its subsidiaries (together the "Group") are engaged in residential-led, mixed-use property development. Further information about the nature of the Group's operations and its principal activities are set out in the Directors' Report on page 81.

BASIS OF PREPARATION

These Consolidated Financial Statements have been prepared in accordance with European Union endorsed International Financial Reporting Standards ("IFRSs"), IFRS-IC interpretations and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The Consolidated Financial Statements have been prepared under the historical cost convention and on the going concern basis. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Consolidated Financial Statements, are disclosed on page 96.

The following new standards, amendments to standards and interpretations are applicable to the Group and are mandatory for the first time for the financial year beginning 1 May 2013: IAS 12 (Amendment) "Income Taxes"; IAS 19 (Revised 2011) "Employee Benefits"; IAS 1 (Amendment) "Presentation of Items of Other Comprehensive Income"; IFRS 13 (Amendment) "Fair Value Measurement"; and Annual improvements to IFRSs 2009 - 2011 Cycle.

The adoption by the Company of IAS 19 Employee Benefits did not have a material effect on the consolidated financial statements for the year ended 30 April 2013 (the effect being less than £0.2 million) which have not therefore been restated. The adoption of IAS 19 has resulted in the replacement of the interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate, measured at the start of the year.

The other standards have not had a material impact on the results of the Company for the year ended 30 April 2014.

The following new standards, amendments to standards and interpretations have been issued, but are not yet effective for the financial year ending 30 April 2014 and have not been adopted early: IFRS 10 Consolidated Financial Statements; IFRS 11 Joint Arrangements; IFRS 12 Disclosure of Interest in Other Entities; and IAS 28 (Amendment) Investments in Associates and Joint Ventures.

These standards are not expected to have a significant impact on the Consolidated Financial Statements.

The Group has significant financial resources and the Directors have assessed the future funding requirements of the Group and compared this to the level of committed loan facilities and cash resources over the medium term. In making this assessment, consideration has been given to the uncertainty inherent in future financial forecasts and where applicable, reasonable sensitivities have been applied to the key factors affecting the financial performance of the Group. The Directors have a reasonable expectation that the Group has adequate resources to continue its operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis of accounting in preparing its consolidated financial statements.

BASIS OF CONSOLIDATION

(a) Subsidiaries

The Consolidated Financial Statements comprise the financial statements of the Parent Company and all its subsidiary undertakings. The accounting date for subsidiary undertakings is 30 April.

Subsidiary undertakings are entities that are directly or indirectly controlled by the Group. Control exists where the Group has the power to govern the financial and operating policies of the entity so as to obtain the benefits from its activities.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiary undertakings by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of cost of acquisition over the fair value of the Group's share of identifiable net assets acquired is recorded as goodwill. If the cost of the acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by the Group.

All intra-Group transactions, balances, income and expenses are eliminated on consolidation. Acquisition-related costs are expensed as incurred.

(b) Joint ventures

Entities which are jointly controlled with another party or parties ("joint ventures") are accounted for using the equity method of accounting. The results attributable to the Group's holding in joint ventures are shown separately in the consolidated income statement. The amount included in the consolidated statement of financial position is the Group's share of the net assets of the joint ventures plus net loans receivable. Goodwill arising on the acquisition of joint ventures is accounted for in accordance with the policy set out above. The carrying value of goodwill is included in the carrying value of the investment in joint ventures. On transfer of land and/or work in progress to joint ventures, the Group recognises only its share of any profits or losses, namely that proportion sold outside the Group.

SEGMENTAL REPORTING

Operating segments are identified in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group determines its reportable segments having regard to permitted aggregation criteria with the principal condition being that the operating segments should have similar economic characteristics.

The Group is predominantly engaged in residential-led, mixed-use property development, comprising residential revenue, revenue from land sales and commercial revenue.

For the purposes of determining its operating segments, the chief operating decision-maker has been identified as the Executive Committee of the Board.

This committee approves investment decisions, allocates the Group's resources and reviews the internal reporting in order to assess performance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS continued

1 ACCOUNTING POLICIES CONTINUED

The Group has determined that its operating segments are the management teams that report into the Executive Committee of the Board. These management teams are all engaged in residential-led, mixed-use development in the United Kingdom and, having regard to the aggregation criteria in IFRS 8, the Group has one reportable operating segment.

In addition to its development activities, the Group holds certain residential properties for investment purposes. These investment activities represent a separate segment which is included within "Other activities", as they do not meet the size thresholds to be disclosed as a separate reportable segment.

REVENUE

Revenue represents the amounts receivable from the sale of properties and investment properties during the year and other income directly associated with property development. Properties are treated as sold and profits are recognised when contracts are exchanged and the building work is physically complete.

Rental income is recognised in the income statement on a straight line basis over the life of the lease. Any lease incentives are recognised as an integral part of the total rental income.

EXPENDITURE

Expenditure recorded in inventory is expensed through cost of sales at the time of the related property sale. Net operating expenditure is recognised in respect of goods and services received when supplied in accordance with contractual terms. Provision is made when an obligation exists for a future liability in respect of a past event and where the amount of the obligation can be reliably estimated. See Accounting estimates and judgements below for further disclosures on cost recognition.

TAXATION

The taxation expense represents the sum of the current tax payable and deferred tax. Current tax, including UK corporation tax, is provided at the amounts expected to be paid (or received) using the tax rules and laws that have been enacted, or substantively enacted, by the reporting date.

Deferred taxation is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised on all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill, or from the initial recognition (except in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit, or from differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Deferred taxation is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. The carrying value of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which taxable temporary differences can be utilised. Deferred taxation is charged or credited to the income statement, except when it relates to items charged or credited directly to reserves, in which case the deferred taxation is also dealt with in reserves.

Deferred taxation assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred taxation assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

INTANGIBLE ASSETS

Where the cost of acquiring new and additional interests in subsidiaries, joint ventures and businesses exceeds the fair value of the net assets acquired, the resulting premium on acquisition (goodwill) is capitalised and its subsequent measurement is based on annual impairment reviews and impairment reviews performed where an impairment indicator exists, with any impairment losses recognised immediately in the income statement. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is carried at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is provided to write off the cost of the assets on a straight line basis to their residual value over their estimated useful lives at the following annual rates:

Freehold buildings	2%	Fixtures and fittings	15% / 20%
Motor vehicles	25%	Computer equipment	33 1/3 %

Freehold property disclosed in the notes to the consolidated financial statements consists of both freehold land and freehold buildings. No depreciation is provided on freehold land. Computer equipment is included within fixtures and fittings. The assets' residual values, carrying values and useful lives are reviewed on an annual basis and adjusted if appropriate at each balance sheet date. Where an impairment is identified, the recoverable amount of the asset is identified and an impairment loss, where appropriate, is recognised in the income statement.

Subsequent costs are included in the assets' carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within net operating expenses in the income statement.

INVESTMENT PROPERTIES

Investment properties, which are properties held to earn rental income, are recognised using the "cost model" and are carried in the statement of financial position at historic cost less accumulated depreciation.

Depreciation is provided to write off the element of the cost of the assets that relates to buildings at 2% per annum on a straight line basis. No depreciation is charged on the element of the cost of the assets that relates to land.

Sales of investment properties are recognised in revenue and cost sales. These are considered to be similar in nature to the underlying property sales of the Group.

INVENTORIES

Property in the course of development and completed units are valued at the lower of cost and net realisable value. Direct cost comprises the cost of land, raw materials and development costs but excludes indirect overheads. Provision is made, where appropriate, to reduce the value of inventories and work in progress to their net realisable value.

Land purchased for development, including land in the course of development, is initially recorded at cost. Where such land is purchased on deferred settlement terms, and the cost differs from the amount that will subsequently be paid in settling the liability, this difference is charged as a finance cost in the income statement over the period to settlement.

TRADE AND OTHER RECEIVABLES

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the income statement within net operating expenses. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against net operating expense in the income statement.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprises cash balances in hand and at the bank, including bank overdrafts repayable on demand which form part of the Group's cash management, for which offset arrangements across Group businesses have been applied where appropriate.

SHARE CAPITAL

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any Group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders until the shares are cancelled, sold or reissued. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

BORROWINGS

Borrowings are recognised initially at fair value, net of transaction costs incurred. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

TRADE AND OTHER PAYABLES

Trade and other payables on normal terms are not interest bearing and are stated at their nominal value which is considered to be their fair value. Trade payables on extended terms are recorded at their fair value at the date of acquisition of the asset to which they relate. The discount to nominal value is amortised over the period of the credit term and charged to finance costs.

PROVISIONS

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle that obligation, and the amount has been reliably estimated.

DEPOSITS

New property deposits and on account contract receipts are held within current trade and other payables.

EMPLOYEE BENEFITS

(a) Pensions

The Group accounts for pensions under IAS 19 "Employee benefits". The Group has both defined benefit and defined contribution plans. The defined benefit plan was closed to future accrual with effect from 1 April 2007.

For the defined benefit scheme, the obligations are measured using the projected unit method. The calculation of the net obligation is performed by a qualified actuary. The operating and financing costs of these plans are recognised separately in the income statement; service costs are set annually on the basis of actuarial valuations of the scheme and financing costs are recognised in the period in which they arise. Actuarial gains and losses are recognised immediately in the statement of comprehensive income. In accordance with IAS 19 the Group does not recognise on the statement of financial position any surplus in the scheme.

Pension contributions under defined contribution schemes are charged to the income statement as they fall due.

(b) Share-based payments

Where the Company operates equity-settled, share-based compensation plans, the fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted. At each balance sheet date, the Group revises its estimates of the number of options that are expected to vest. It recognises the impact of the revision to original estimates, if any, in the income statement, with a corresponding adjustment to equity.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

DIVIDENDS

Dividend distributions to shareholders are recognised as a liability in the period in which the dividends are appropriately authorised and approved for payout and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

LEASING AGREEMENTS

Payments and receipts under operating lease agreements are charged or credited against profit on a straight line basis over the life of the lease.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS continued

1 ACCOUNTING POLICIES CONTINUED

ACCOUNTING ESTIMATES AND JUDGEMENTS

Management applies the Group's accounting policies as described above when making critical accounting judgements, of which no individual judgement is deemed to have a significant impact upon the financial statements, apart from those involving estimations, which are detailed below.

(a) Carrying value of land and work in progress and estimation of costs to complete

The Group holds inventories stated at the lower of cost and net realisable value. Such inventories include land, work in progress and completed units. As residential development is largely speculative by nature, not all inventories are covered by forward sales contracts. Furthermore due to the nature of the Group's activity and, in particular the scale of its developments and the length of the development cycle, the Group has to allocate site-wide development costs between units being built and/or completed in the current year and those for future years. It also has to forecast the costs to complete on such developments.

In making such assessments and allocations, there is a degree of inherent estimation uncertainty. The Group has established internal controls designed to effectively assess and centrally review inventory carrying values and ensure the appropriateness of the estimates made.

(b) Provisions

The Group makes assumptions to determine the timing and its best estimate of the quantum of its construction and other liabilities for which provisions are held.

(c) Revenue recognition

Assumptions are made which complement external certifications to assess whether the building work for properties sold is physically complete and hence whether the Group's revenue recognition criteria have been satisfied.

(d) Share-based payments

Assumptions are made in determining the fair value of employee services received in exchange for the grant of options under share-based payment awards at the date of grant.

2 SEGMENTAL DISCLOSURE

For the purposes of determining its operating segments, the chief operating decision-maker has been identified as the Executive Committee of the Board.

This committee approves investment decisions, allocates the Group's resources and reviews the internal reporting in order to assess performance.

The Group has determined that its operating segments are the management teams that report into the Executive Committee of the Board. These management teams are all engaged in residential-led, mixed-use development in the United Kingdom and, having regard to the aggregation criteria in IFRS 8, the Group has one reportable operating segment.

In addition to its development activities, the Group holds certain residential properties for investment purposes. These investment activities represent a separate segment which is included within other activities as it does not meet the size thresholds to be disclosed as separate reportable segments. Revenue and operating profit for the year ended 30 April 2014 include £105.4 million and £29.6 million, respectively, on the sale of 534 properties to M&G Investments and £32.8 million and £13.6 million, respectively, on the sale of 141 other investment properties.

	2014 £m	2013 £m
Segment results		
Residential-led mixed-use development	379.7	269.7
Other activities	0.3	1.0
	380.0	270.7

Segment profit before tax represents the profit before tax allocated to each segment. This is the measure reported to the Executive Committee of the Board for the purpose of resource allocation and assessment of segment performance.

	2014 £m	2013 £m
Segment assets		
Residential-led mixed-use development	2,943.1	2,394.6
Other activities	7.2	102.3
	2,950.3	2,496.9

For the purpose of monitoring segment performance and allocating resources between segments all assets are considered to be attributable to residential-led mixed-use development with the exception of investment properties which are held for the Group's investing activities and have therefore been allocated to other activities.

3 NET FINANCE COSTS

	2014 £m	2013 £m
Finance income		
Finance costs:		
Interest payable on bank loans and non-utilisation fees	(5.1)	(4.8)
Amortisation of facility fees	(1.3)	(0.9)
Other finance costs	(3.9)	(3.9)
	(10.3)	(9.6)
Net finance costs		
	(6.9)	(8.1)

Finance income predominantly represents interest earned on cash deposits.

Other finance costs represent imputed interest on taxation and on land purchased on deferred settlement terms.

4 PROFIT BEFORE TAXATION

Profit before taxation is stated after charging/(crediting) the following amounts:

	2014 £m	2013 £m
Staff costs (note 5)	177.3	138.2
Depreciation of property, plant and equipment (note 9)	1.9	1.8
Loss on sale of fixed assets	0.7	-
Profit on sale of investment properties	(43.2)	(3.6)
Rental income from investment properties	(0.9)	(8.1)
Direct operating expense in relation to investment properties including depreciation	0.2	4.8
Operating lease costs	2.7	1.9
Fees paid and payable to the Company's previous auditor for the audit of the Parent Company and consolidated financial statements	-	0.2
Fees paid and payable to the Company's previous auditor for other services:		
– Audit of the Company's subsidiaries	–	0.1
– Audit related assurance services	0.1	0.1
– Taxation compliance services	–	0.1
– All other non-audit services	–	0.2
Fees paid and payable to the Company's current auditor for the audit of the Parent Company and consolidated financial statements	0.2	–
Fees paid and payable to the Company's current auditor for other services:		
– Audit of the Company's subsidiaries	0.1	–
– Taxation compliance services	0.1	–

The value of inventories expensed and included in the cost of sales is £1,032.9m (2013: £895.3m).

In addition to the above services, the Group's current auditor has been asked to act as auditor to The Berkeley Final Salary Plan. The appointment of auditors to the Group's pension scheme and the fees paid in respect of the audit are agreed by the trustees of the scheme, who act independently of the management of the Group. The fees paid to the Group's auditors for audit services to the pension scheme during the year were £nil (2013: £nil).

Fees paid and payable to the Company's current auditor for other services disclosed in the table above relate only to the period from the date of appointment of 6 December 2013. Fees paid in respect of the full year ended 30 April 2014 were £0.1 for taxation compliance services and £0.1 for all other non-audit services.

Remuneration paid to the Company's previous auditors in respect of audit related assurance services relates to the interim review.

5 DIRECTORS AND EMPLOYEES

	2014 £m	2013 £m
Staff costs		
Wages and salaries	141.8	97.4
Social security costs	28.5	26.0
Share-based payments	3.3	11.8
Pension costs	3.7	3.0
	177.3	138.2

The average monthly number of persons employed by the Group during the year was 1,647 (2013: 1,326).

KEY MANAGEMENT COMPENSATION

Key management comprises the Main Board, as the Directors are considered to have the authority and responsibility for planning, directing and controlling the activities of the Group. Details of Directors' emoluments are set out in the Remuneration Report on pages 56 to 80.

EQUITY-SETTLED SHARE-BASED PAYMENTS

The Group operates three equity-settled share based payments schemes. The charge to the income statement in respect of share-based payments in the year relating to grants of share options awarded under the 2009 Long-Term Incentive Plan and the 2011 Long-Term Incentive Plan was £9.0m (2013: £11.8m). The charge to the income statement attributable to key management is £2.3m (2013: £10.9m).

There were no exercisable share options at the end of the year.

2009 Long-Term Incentive Plan

Part A

On 29 June 2009 the balance of the shares originally awarded under the 2004(b) Long-Term Incentive Plan, totalling 5,330,340 shares, were replaced by options under Part A of the 2009 Long-Term Incentive Scheme, with an exercise price of £1.36 per share, in accordance with the shareholder approval obtained at the Extraordinary General Meeting on 15 April 2009. During the year, no options lapsed, leaving 4,441,950 outstanding. These became exercisable by the relevant Executive Directors on 31 January 2014. As a result, 4,208,071 shares were issued to the participants, representing 4,441,950 options that vested under 2009 LTIP Part A, less 233,879 of shares equivalent to the exercise price on vesting of £1.36 per share. The share price at the date of vesting was £22.83.

Part B

Part B of the 2009 Long-Term Incentive Plan covers 6,830,000 share options with an exercise price of £6.76. Vesting of the options is in two tranches: 50% on 15 April 2015 and 50% on 15 April 2016. The options are conditional on continued employment at the relevant vesting date and the satisfaction of the underpin condition that Net Assets per Share are at least £9.00 at 15 April 2015 and 15 April 2016. During the year, 30,000 options lapsed on the departure of employees (2013: 180,000) leaving 6,090,000 options outstanding (2013: 6,120,000).

2011 Long-Term Incentive Plan

The Company announced in June 2011 as part of a strategic review of the business a long term plan to return approximately £1.7 billion to shareholders over the next 10 years. The rules were subsequently amended and approved at the 2012 Annual General Meeting to allow the returns to be made through a combination of dividends (£13 per share) and share buy backs ('distributions'). The cumulative distributions required by the plan on or before the relative milestone dates are set out below:

	Cumulative distributions
30 September 2015	£4.34 per share
30 September 2018	£4.33 per share
30 September 2021	£4.33 per share

A long term remuneration plan was proposed to support this strategy, the 2011 Long Term Incentive Plan ("2011 LTIP"), which was approved by shareholders at the Annual General Meeting on 5 September 2011 and the amendment at the Annual General Meeting on 5 September 2012. The key features of the 2011 LTIP are:

- if the Company returns £1.7 billion to shareholders over a ten year period via a series of dividend payments (£13 per share) and share buy backs by the milestone dates referred to above, participants will be entitled to exercise options and receive a number of ordinary shares in the capital of the Company at the end of the ten year period.
- the maximum number of shares capable of being earned by all participants are 19,616,503 shares, being 13% of the fully diluted share capital of the Company at the date of approval of the plan.
- the exercise price of options granted under the 2011 LTIP will be £13 per share less an amount equal to the value of all dividends paid between the date of approval of the 2011 LTIP and 30 September 2021, provided the exercise price cannot be less than zero.

The fair value of the options granted during that year, determined using the current market pricing model, was £3.17 for options which vest on 30 September 2021. The inputs into the current market option pricing model were:

	Inputs
Grant date	5 September 2011
Vesting date	30 September 2021
Share price at grant date (p)	1,236
Exercise price (p)	nil
Discount rate	6.3%

In 2014, 1,250,000 of the 19,616,503 options over shares were surrendered by one Executive Director. These have now been reallocated to a wider pool of the Group's senior management team. No existing beneficiaries of the Plan received any additional options over shares. All other conditions of the Plan remained unchanged.

The discount rate was determined by calculating the Group's expected cost of capital over the vesting period at the grant date.

CASH-SETTLED SHARE BASED PAYMENTS**Bonus Banking Plan.**

Under the Bonus Banking Plan, discussed in the Directors' Remuneration page on page 59, 50% of the balance on the plan account at the end of the financial year is deferred in notional shares in the Company. The notional shares can be settled in equity or cash at the discretion of the Company. In prior periods, the plan has been accounted for as equity-settled. At the end of year, the plan is expected to be settled in cash, which has been accounted for as a modification to the plan.

The liability is accrued over the vesting period. The income statement is charged with an estimate for the vesting of notional shares awarded subject to service and non-market performance conditions. The charge for 2014 was £10.8m (2013: £5.8m), of which £4.6m relates to the modification to cash-settlement.

The total carrying amount of liabilities for the Bonus Plan at the end of the year was £11.4m (2013: £1.6m)

Senior Management share appreciation rights

Certain key members of senior management have been awarded cash bonuses deferred in notional shares in the Company. The notional shares have a contractual life of five years after the bonus is allotted, and are settled in cash subject to continued employment by the Company and individual and divisional performance criteria.

The liability is accrued over the vesting period. The income statement is charged with an estimate for the vesting of notional shares awarded subject to service and non-market performance conditions. The charge for 2014 was £6.9m (2013: £4.5m).

The total carrying amount of liabilities for share appreciation rights at the end of the year was £13.0m (2013: £6.1m)

PENSIONS

During the year, two principal pension schemes were in place for employees. The Berkeley Group plc Group Personal Pension Plan and the St George PLC Group Personal Pension Plan are defined contribution schemes. The assets of these schemes were held in separate trustee administered funds.

The Berkeley Final Salary Plan is a defined benefit scheme which was closed to future accrual with effect from 1 April 2007.

DEFINED CONTRIBUTION PLAN

Contributions amounting to £3.3m (2013: £2.7m) were paid into the defined contribution schemes during the year.

DEFINED BENEFIT PLAN

As at 30 April 2014, the Group operated one defined benefit pension scheme which was closed to future accrual with effect from 1 April 2007. This is a separate trustee administered fund holding the pension plan assets to meet long term pension liabilities for some 335 past employees. The level of retirement benefit is principally based on salary earned in the last three years of employment prior to leaving active service and is linked to changes in inflation up to retirement.

The Berkeley Final Salary Plan is subject to an independent actuarial valuation at least every three years. The most recently finalised valuation was carried out as at 1 May 2013 and finalised in December 2013. The method adopted in the 2013 valuation was the projected unit method, which assumed a return on investment both prior to and after retirement of 4.00% per annum and pension increases of 3.25% per annum. The market value of the Berkeley Final Salary Plan assets as at 1 May 2013 was £16.2m and covered 97% of the scheme's liabilities. Following the finalisation of the 2007 valuation, with effect from 1 July 2008, employer's required regular contributions were reduced to zero. Following the finalisation of the 2013 valuation, the Group agreed with the Trustees of the Scheme to make additional contributions to the Scheme of £0.2m for the remainder of the year (1 December 2013 to 30 April 2014) to address the Scheme's deficit after which required contributions were reduced to zero. The Group made total contributions of £0.6m during the year (2013: £0.6m).

For the purposes of IAS 19, the 2013 valuation was updated for 30 April 2014.

The most significant risks to which the plan exposes the group are:

Inflation risk: A rise in inflation rates will lead to higher plan liabilities as a large proportion of the defined benefit obligation is indexed in line with price inflation. This effect will be limited due to caps on inflationary increases to protect the plan against extreme inflation.

Interest rate risk: A decrease in corporate bond yields would result in an increase to plan liabilities although this effect would be partially offset by an increase in the value of the plan's bond holdings.

Mortality risk: An increase in life expectancy would result in an increase to plan liabilities as a significant proportion of the Pension Schemes' obligations are to provide benefits for the life of the member.

Actuarial assumptions

The major assumptions used by the actuary for the 30 April 2014 valuation were:

	30 April 2014	30 April 2013
Valuation at:		
Discount rate	4.30%	4.30%
Inflation assumption (RPI)	3.40%	3.25%
Inflation assumption (CPI)	2.50%	2.50%
Rate of increase in pensions in payment post-97 (Pre-97 receive 3% p.a. increases)	3.40%	3.25%

The mortality assumptions are the standard S1PA CMI_2013_X [1.0%] (2013: S1PA CMI_2009_X [1.0%]) base table for males and females, both adjusted for each individual's year of birth to allow for future improvements in mortality rates. The life expectancy of male and female pensioners (now aged 65) retiring at age 65 on the balance sheet date is 22.0 years and 24.2 years respectively (2013: 22.0 and 24.0). The life expectancy of male and female deferred pensioners (now aged 50) retiring at age 65 after the balance sheet date is 23.0 years and 25.3 years respectively (2013: 23.0 and 25.2).

Sensitivity Analysis

The calculation of the defined benefit obligation is sensitive to the assumptions set out above. The following table summarises how the impact on the defined benefit obligation at the end of the reporting period would have increased as a result of a change in the respective assumptions.

	Change in Assumption	Change in defined benefit obligation
Discount rate	-0.25% p.a.	+4.2%
Rate of inflation	+0.25% p.a.	+2.9%
Rate of mortality	+ 1 year	+2.6%

These calculations provide an approximate guide to the sensitivity of results and may not be as accurate as a full valuation carried out on these assumptions. In practice, changes in some of the assumptions are correlated and so each assumption change is unlikely to occur in isolation, as shown above.

Funding

The Group expects to pay £0.6m in contributions to its defined benefit plan in the year ending 30 April 2015 (i.e. the next annual reporting period).

6 TAXATION

The tax charge for the year is as follows:

	2014 £m	2013 £m
Current tax		
UK corporation tax payable	(94.3)	(77.7)
Adjustments in respect of previous years	(4.0)	7.0
	(98.3)	(70.7)
Deferred tax at 23% (note 19) (2013: 24%)	16.5	10.8
Adjustment in respect of change of tax rate from 23% to 21%/20% (note 19) (2013: 24% to 23%)	(5.3)	(1.1)
	(87.1)	(61.0)

Tax on items recognised directly in other comprehensive income is as follows:

	2014 £m	2013 £m
Deferred tax on actuarial loss recognised in the pension scheme (note 19)	0.1	0.2

Tax on items recognised directly in equity is as follows:

	2014 £m	2013 £m
Deferred tax in respect of employee share schemes (note 19)	17.3	21.4
Current tax in respect of employee share schemes (note 19)	(23.1)	–
	(5.8)	21.4

The tax charge assessed for the year differs from the standard rate of UK corporation tax of 22.84% (2013: 23.92%). The differences are explained below:

	2014 £m	2013 £m
Profit before tax	380.0	270.7
Tax on profit at standard UK corporation tax rate	86.8	64.7
Effects of:		
Expenses not deductible for tax purposes	0.5	0.9
Tax effect of share of results of joint ventures	0.1	0.4
Adjustments in respect of previous periods – current tax	4.0	(7.0)
Adjustments in respect of deferred tax change of rate from 23% to 21%/20% (2013: 24% to 23%)	5.3	1.1
Utilisation of losses	(0.8)	–
Other	(8.8)	0.9
Tax charge	87.1	61.0

The statutory tax rate in 2014 was at 22.84% (11 months at 23%, 1 month at 21%)

The adjustments in respect of previous years includes items such as contaminated land relief, research and development relief and other timing differences that are not individually significant and have not therefore been separately disclosed.

The other adjustment predominantly relates to the deferred tax effect of the external sale of certain properties from subsidiaries incorporated in overseas tax jurisdictions with different rates to the UK on which tax has been paid in previous years (£8.2m).

7 EARNINGS PER ORDINARY SHARE

Basic earnings per ordinary share is calculated as profit for the financial year attributable to shareholders of the Group divided by the weighted average number of shares in issue during the year.

	2014	2013
Profit attributable to shareholders (£m)	292.9	209.7
Weighted average number of shares (m)	132.1	131.0
Basic earnings per ordinary share (p)	221.8	160.0

For diluted earnings per ordinary share, the weighted average number of shares in issue is adjusted to assume the conversion of all potentially dilutive ordinary shares. At 30 April 2014, the Group had three (2013: four) categories of potentially dilutive ordinary shares: 5.9 million £6.76 share options under the 2009 LTIP Part B and 19.6 million £nil share options under the 2011 LTIP. 4.4 million share options vested on 31 January 2014 under the 2009 LTIP Part A scheme.

A calculation is done to determine the number of shares that could have been acquired at fair value based on the aggregate of the exercise price of each share option and the fair value of future services to be supplied to the Group which is the unamortised share-based payments charge. The difference between the number of shares that could have been acquired at fair value and the total number of options is used in the diluted earnings per share calculation.

	2014	2013
Profit used to determine diluted EPS (£m)	292.9	209.7

The goodwill balance relates solely to the acquisition of the 50% of the ordinary share capital of St James Group Limited, completed on 7 November 2006, that was not already owned by the Group. The goodwill balance is tested annually for impairment. The recoverable amount has been determined on the basis of the value in use of the business using the current five year pre-tax forecasts. Key assumptions are as follows:

- (i) Cash flows beyond a five year period are not extrapolated;
- (ii) A pre-tax discount rate of 13.21% (2013: 11.62%) based on the Group's weighted average cost of capital.

The Directors have identified no reasonably possible change in a key assumption which would give rise to an impairment charge.

During the year, the Group sold 534 rental properties to a fund owned and controlled by M&G Investments (Note 15). Following this sale, as agreed with M&G Investments, the Group invested £10.0 million into the fund to acquire 100,000 units at an average price of £100 per unit. As at 30 April 2014, the Group held 100,000 units. In accordance with IFRS 7 'Financial Instruments: Disclosures', these financial assets have been classified as Level 2 within the fair value hierarchy. Level 2 fair value measurements are those that are derived from inputs other than quoted prices included within level 1 that are observable for the asset (that is, as prices) or indirectly (that is, derived from prices).

On 30 April 2014, based on inputs other than quoted prices, the units had a market value of £11.0m. A gain of £1.0m has been recognised in the consolidated statement of comprehensive income for the year ended 30 April 2014.

Further disclosures relating to financial assets are set out in note 26.

a) Construction liabilities

The Group holds provisions for a best estimate of certain post-completion development obligations in respect of the construction of its portfolio of complex mixed-use developments which are expected to be incurred in the ordinary course of business, based on historic experience, but which are uncertain in terms of timing and quantum.

b) Other

Other provisions include onerous lease provisions for properties leased by the Group and provisions for the Group's exposure to specific estate liabilities on historic sites developed by the Group.

Deferred tax is calculated in full on temporary differences under the liability method using a tax rate of 21% or 20% (2013: 23%). There is no unprovided deferred tax (2013: nil).

All of the deferred tax assets were available for offset against deferred tax liabilities and hence the net deferred tax asset at 30 April 2014 was £61.1m (2013: £56.7m).

Deferred tax assets of £58.3m (2013: £33.9m) are expected to be recovered after more than one year.

The Autumn Statement (December 2013) and the draft Finance Bill 2014 included legislation to reduce the main rate of corporation tax to 21% for the financial year commencing 1 April 2014 and 20% for the financial year commencing 1 April 2015. The change had been substantively enacted at the balance sheet date and, therefore, has been reflected in these financial statements.

The deferred tax credited to equity during the year was as follows:

	2014 £m	2013 £m
Deferred tax on actuarial loss recognised in the pension scheme (note 6)	0.1	0.2

Each ordinary share of 5p is a voting share in the capital of the Company, is entitled to participate in the profits of the Company and on a winding-up is entitled to participate in the assets of the Company.

On 29 January 2014, the company transferred 3.6 million shares (2013: nil), held as 'treasury shares', to the Employee Benefit Trust.

On 31 January 2014, 0.5 million ordinary shares (2013: nil) were allotted and issued to the Employee Benefit Trust.

On 31 January 2014, 4.2 million ordinary shares (2013: nil) were transferred from the Employee Benefit Trust to Executive Directors to satisfy the exercise of options under the 2009 Long Term Incentive Plan Part A.

At 30 April 2014 there were no shares held as 'treasury shares' (2013: 3.6m).

At 30 April 2014 there were 0.1m shares held in trust (2013: 0.2m). The market value of these shares at 30 April 2014 was £2.4m (2013: £4.9m).

21 RESERVES

The movement in reserves is set out in the Consolidated Statement of Changes in Equity on page 91.

OTHER RESERVE

The other reserve of negative £961.3m (2013: negative £961.3m) arose from the application of merger accounting principles to the financial statements on implementation of the capital reorganisation of the Group, incorporating a Scheme of Arrangement, in the year ended 30 April 2005.

REVALUATION RESERVE

The revaluation reserve consists of balances in relation to two separate transactions.

The first element arose following the acquisition on 7 November 2006 of the 50% of the ordinary share capital of St James Group Limited not already owned. A revaluation reserve of £20,297,000 was originally created in accordance with IFRS 3 through fair value adjustments to the 50% of the net assets of St James Group Limited owned by the Group prior to 7 November 2006. Transfers of £54,000 in the year (2013: £929,000) out of retained earnings was recognised as the associated fair value adjustments. At 30 April 2014 the balance in the revaluation reserve relating to the acquisition of St James Group Limited is £3,877,000 (2013: £3,823,000).

The second element arose in 2010 following the acquisition on 23 July 2009 of the shares owned by Saad Investments Company Limited and the outstanding shareholder loans in five joint ventures which became fully owned subsidiaries from this date. A revaluation reserve of £560,000 was created in accordance with IFRS 3 through fair value adjustments to the 50% of the net assets of the joint ventures owned by the Group prior to 23 July 2009. Transfers of £36,000 in the year (2013: £304,000) out of retained earnings were recognised as the associated fair value adjustments. At 30 April 2014 the balance in the revaluation reserve relating to the acquisition of the five entities that were previously joint ventures with Saad Investments Company Limited is £213,000 (2013: £177,000).

CAPITAL REDEMPTION RESERVE

The capital redemption reserve was created to maintain the capital of the Company following the redemption of the B Shares associated with the Scheme of Arrangement created in 2004 which completed on 10 September 2009 with the re-designation of the unissued B shares as ordinary shares.

RETAINED EARNINGS

The Company and the Company's Employee Benefit Trust acquired none (2013: none) of its own shares through purchases on the London Stock Exchange in the year.

22 DIVIDENDS PER SHARE

The dividends paid in 2014 were a total of £195.2 million, £77.2 million in September 2013 (59 pence per share) and £118.0 million in January 2014 (90 pence per share) (2013: £19.7 million, 15 pence per share). A further interim dividend of £121.7 million (90 pence per share) has been declared for payment on 26 September 2014. These financial statements do not reflect this further interim dividend.

23 CONTINGENT LIABILITIES

The Group has guaranteed road and performance agreements in the ordinary course of business of £15.0m (2013: £15.7m).

26 CAPITAL MANAGEMENT, FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group finances its operations by a combination of shareholders' funds, working capital and, where appropriate, borrowings. The Group's objective when managing capital is to maintain an appropriate capital structure in the business to allow management to focus on creating sustainable long-term value for its shareholders, with flexibility to take advantage of opportunities as they arise in the short and medium term. This allows the Group to take advantage of prevailing market conditions by investing in land and work in progress at the right point in the cycle or delivering returns to shareholders through dividends or share buy backs. Last year the Group put in place a long-term strategic plan to see £13 per share returned to shareholders over the next 10 years. This plan, reported in more detail in the Trading and Financial Review on pages 38 to 42, ensures there is sufficient working capital retained in the business to continue investing selectively in new land opportunities as they arise.

The Group monitors capital levels principally by monitoring net cash/debt levels, cash flow forecasts and return on average capital employed. The Group considers capital employed to be net assets adjusted for net cash/debt. Capital employed at 30 April 2014 was £1,312.1m (2013: £1,277.7m). The increase in capital employed in the year of £34.4m reflects further investment in land and work in progress during the year.

The Group's financial instruments comprise financial assets being: trade receivables and cash and cash equivalents and financial liabilities being: bank loans, trade payables, deposits and on account receipts, loans from joint ventures and accruals. Cash and cash equivalents and borrowings are the principal financial instruments used to finance the business. The other financial instruments highlighted arise in the ordinary course of business.

All of the operations carried out by the Group are in sterling there is no direct currency risk, and therefore the Group's main financial risks are primarily:

- liquidity risk – the risk that suitable funding for the Group's activities may not be available;
- market interest rate risk – the risk that Group financing activities are adversely affected by fluctuation in market interest rates; and
- credit risk – the risk that a counterparty will default on their contractual obligations resulting in a loss to the Group.

FINANCIAL INSTRUMENTS: FINANCIAL ASSETS

The Group's financial assets can be summarised as follows:

	2014 £m	2013 £m
Current		
Trade receivables	134.0	105.9
Cash and cash equivalents	130.2	66.8
	264.2	172.7
Non-current		
Available-for-sale financial assets	11.0	–
	11.0	–
Total financial assets	275.2	172.7

Trade receivables and available-for-sale financial assets are non-interest bearing. Of the current trade receivables balance of £134.0m (30 April 2013: £105.9m), £127.3m (30 April 2013: £87.8m) was not past due, with £6.7m being 0–30 days past due (30 April 2013: £6.6m, 0–30 days past due, £5.8m, 31 to 60 days, £5.7m over 60 days).

Cash and cash equivalents are short-term deposits held at either floating rates linked to LIBOR or fixed rates.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the group's assets that are measured at fair value at 30 April 2014.

	Notes	Level 1 £m	Level 2 £m	Level 3 £m	Total £m
Assets					
Available-for-sale financial assets	11	–	11.0	–	11.0
Total assets		–	11.0	–	11.0

The available-for-sale financial asset was acquired in the year (Note 11) therefore there is no prior year comparative.

FINANCIAL INSTRUMENTS: FINANCIAL LIABILITIES

The Group's financial liabilities can be summarised as follows:

	2014 £m	2013 £m
Current		
Bank loans	(1.0)	(4.7)
Trade payables	(346.7)	(381.1)
Deposits and on account contract receipts	(741.6)	(426.1)
Loans from joint ventures	(0.1)	(0.1)
Accruals and deferred income	(90.8)	(72.0)
Other loans	–	(17.4)
	(1,180.2)	(901.4)
Non-current		
Trade payables	(148.6)	(115.5)
	(148.6)	(115.5)
Total financial liabilities	(1,328.8)	(1,016.9)

All amounts included above are unsecured.

Current bank loans have term expiry dates within twelve months of the balance sheet date and are held at floating interest rates linked to LIBOR. Trade payables and other current liabilities are non-interest bearing.

In the prior year, other loans represented a loan from the Homes and Communities Agency on which interest was payable based on a proportionate share of the net rental income arising from the properties to which the loan related. This loan was repaid following completion of the sale of 534 HCA funded residential properties on 5 June 2014 (see note 15).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS continued

26 CAPITAL MANAGEMENT, FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT CONTINUED

The maturity profile of the Group's non-current financial liabilities, all of which are held at amortised cost, is as follows:

	2014 £m	2013 £m
In more than one year but not more than two years	(54.3)	(27.7)
In more than two years but not more than five years	(93.3)	(87.8)
In more than five years	(1.0)	–
	(148.6)	(115.5)

The carrying amounts of the Group's financial assets and financial liabilities approximate to fair value.

Current trade receivables and current trade and other payables approximate to their fair value as the transactions which give rise to these balances arise in the normal course of trade and, where relevant, with industry standard payment terms and have a short period to maturity (less than one year).

Current trade receivables include £16.2m relating to amounts owed by St Edward Homes Limited in respect of the inventory sold by the Group in 2009 (Note 27). This is held at its discounted present value (calculated by discounting expected future cash flows at prevailing interest rates and yields as appropriate). The discount rate applied reflects the nominal, risk-free pre-tax rate at the balance sheet date, applied to the maturity profile. At 30 April 2014 a rate of 1.08% was applied (2013: 0.43%).

Non-current trade payables comprise long-term land payables, which are held at their discounted present value (calculated by discounting expected future cash flows at prevailing interest rates and yields as appropriate). The discount rate applied reflects the nominal, risk-free pre-tax rate at the balance sheet date, applied to the maturity profile of the individual land creditors within the total. At 30 April 2014 a rate of 1.08% was applied (2013: 0.43%). Non-current loans approximate to fair value as they are held at variable market interest rates linked to LIBOR.

LIQUIDITY RISK

This is the risk that suitable funding for the Group's activities may not be available. Group management addresses this risk through review of rolling cash flow forecasts throughout the year to assess and monitor the current and forecast availability of funding, and to ensure sufficient headroom against facility limits and compliance with banking covenants. The committed borrowing facilities are set out below.

The contractual undiscounted maturity profile of the Group's financial liabilities, included at their carrying value in the preceding tables, is as follows:

	2014 £m	2013 £m
In less than one year	(1,183.1)	(901.4)
In more than one year but not more than two years	(55.0)	(27.9)
In more than two years but not more than five years	(96.0)	(89.0)
In more than five years	(1.0)	–
	(1,335.1)	(1,018.3)

MARKET INTEREST RATE RISK

The Group's cash and cash equivalents and bank loans expose the Group to cash flow interest rate risk.

The Group's rolling cash flow forecasts incorporate appropriate interest assumptions, and management carefully assesses expected activity levels and associated funding requirements in the prevailing and forecast interest rate environment to ensure that this risk is managed.

If interest rates on the Group's cash/debt balances had been 50 basis points higher throughout the year ended 30 April 2014, profit after tax for the year would have been £483,000 (2013: £26,000 higher). This calculation is based on the monthly closing net cash/debt balance throughout the year. A 50 basis point increase in interest rate represents management's assessment of a reasonably possible change for the year ended 30 April 2014.

CREDIT RISK

The Group's exposure to credit risk encompasses the financial assets being: trade receivables and cash and cash equivalents.

Trade receivables are spread across a wide number of customers, with no significant concentration of credit risk in one area. There has been no impairment of trade receivables during the year (2013: £nil), nor are there any provisions held against trade receivables (2013: £nil), and no trade receivables are past their due date (2013: £nil).

The credit risk on cash and cash equivalents is limited because counterparties are leading international banks with long-term A credit-ratings assigned by international credit agencies.

COMMITTED BORROWING FACILITIES

The Group has committed borrowing facilities as follows:

	Available £m	Drawn £m	Undrawn £m	Termination date	Available £m	Drawn £m	Undrawn £m	Termination date
Revolving credit facility one	275	–	275	May-18	275	–	275	May-17
Revolving credit facility two	250	–	250	Apr-18	250	–	250	Apr-18
	525	–	525		525	–	525	

At 30 April 2014 the total drawn down balance across both facilities was £nil (2013: £nil). In addition, at 30 April 2014 there were bank bonds in issue of £0.2m (2013: £0.2m).

A one year extension was granted on 24 May 2013 for revolving credit facility one, which extended the maturity date on this facility until May 2018.

The revolving credit facilities are secured by debentures provided by certain Group holding companies over their assets. The facility agreement contains financial covenants, which is normal for such agreements, all of which the Group is in compliance with.

27 RELATED PARTY TRANSACTIONS

The Group has entered into the following related party transactions:

TRANSACTIONS WITH DIRECTORS

In terms of new transactions in the 2014 financial year:

- i) Mr A W Pidgley paid £440,052 to Berkeley Homes plc for works carried out at his home under the Group's own build scheme (2013: Mr A W Pidgley £20,156). This is a scheme whereby eligible employees may enter into an arrangement, at commercial rates, with the Group for the construction or renovation of their own home. There were no balances outstanding at the year end.
- ii) Mr G Fry, a Director of the Company, contracted to purchase an apartment at Sovereign Court, Hammersmith, London for £819,950 on 10 September 2013 from St George West London Limited, a wholly owned subsidiary of the Company. Mr Fry is also a Director of St George West London Limited.

The agreement between St George West London Limited and Mr Fry is a standard form sale and purchase agreement used by the Company on its development, save that it is conditional upon the agreement of shareholders.

As this transaction is in excess of £100,000, it constitutes a substantial property transaction with a Director of the Company under sections 190 and 191 of the Companies Act 2006 and is therefore conditional on the approval of shareholders, which will be sought at the Annual General Meeting on 1 September 2014.

Mr Fry paid a ten per cent deposit on exchange of contracts which will only be returned to him in the event that shareholders do not approve the transaction.

In terms of transactions previously disclosed, the purchases of an apartment by Mr G Fry at Chelsea Creek for £725,000 in 2012, by Mr A W Pidgley at Ebury Square for £10,500,000 in 2013 and by Mr R C Perrins at 190 Strand for £2,100,000 in 2013 all received shareholder approval. As at 30 April 2014, any contractual deposits due to date had been paid to the Group, there were no current balances outstanding and the properties were still under construction and so the sales had not yet completed.

TRANSACTIONS WITH JOINT VENTURES

During the financial year there were no transactions with joint ventures other than movements in loans. In 2009 inventory was sold to St Edward Homes Limited for £17,411,000 being the share of the transaction attributable to the other venturer in the joint venture. At 30 April 2014 an amount of £16,219,000 was outstanding and included within trade receivables (2013: £21,319,000). Loans with joint ventures are disclosed in note 10.

28 EVENTS AFTER THE REPORTING PERIOD

On 30 May 2014, the Group exchanged contracts for the sale of a portfolio of ground rent assets for £99.8 million. The sale is expected to give rise to a non-recurring profit on disposal of approximately £80 million after transaction costs in the year ending 30 April 2015.

NOTES TO THE COMPANY FINANCIAL STATEMENTS

C1 ACCOUNTING POLICIES

BASIS OF PREPARATION

These financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006, where applicable, and applicable accounting standards in the United Kingdom (United Kingdom Generally Accepted Accounting Practice) and on the going concern basis. The principal accounting policies are set out below and have been applied consistently throughout the year.

The principal activity of The Berkeley Group Holdings plc ("the Company") is to act as a holding company.

The Company has not presented its own profit and loss account as permitted by Section 408 of the Companies Act 2006.

The Company has not presented its own statement of total recognised gains and losses for the year as there are no separate gains or losses arising in the year.

GOING CONCERN

The Group's business activities together with the factors likely to affect its future development performance and position are set out in the Business Review. The financial position of the Group, its cash flows, liquidity position and borrowing facilities are all described in the Trading and Financial Reviews on pages 38 to 42.

The Group has significant financial resources and the Directors have assessed the future funding requirements of the Group, including the repayment of £1.7 billion to shareholders by 2021, and compared this to the level of committed loan facilities and cash resources over the medium term. In making this assessment consideration has been given to the uncertainty inherent in future financial forecasts and where applicable reasonable sensitivities have been applied to the key factors affecting the financial performance of the Group.

Based on the financial performance of the Group, the Directors have a reasonable expectation that the Company has adequate resources to continue its operational existence for the foreseeable future, notwithstanding its net current liability position of £616.0m (30 April 2013: £671.2m). For this reason they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

EXPENDITURE

Expenditure is recognised in respect of goods and services received when supplied in accordance with contractual terms. Provision is made when an obligation exists for a future liability in respect of a past event and where the amount of the obligation can be reliably estimated.

PENSIONS

Pension contributions under defined contribution schemes are charged to the income statement as they fall due.

INVESTMENTS

Investments in subsidiary undertakings are included in the balance sheet at cost less provision for any impairment.

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis.

SHARE-BASED PAYMENTS

The Company operates three equity-settled, share-based compensation plans. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted.

At each balance sheet date, the Company revises its estimates of the number of options that are expected to vest. It recognises the impact of the revision to original estimates, if any, in the profit and loss account, with a corresponding adjustment to equity.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

DIVIDENDS

Dividend distributions to shareholders are recognised as a liability in the period in which the dividends are appropriately authorised and approved for payout and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

C2 PROFIT/(LOSS) ON ORDINARY ACTIVITIES BEFORE TAXATION

Profit/(loss) on ordinary activities before taxation is stated after charging the following amounts:

	2014 £m	2013 £m
Previous auditors' remuneration – audit fees	–	0.1
Current auditors' remuneration – audit fees	0.1	–

No disclosure of other non-audit services has been made as this is included within note 4 of the consolidated financial statements.

C3 DIRECTORS AND EMPLOYEES

Staff costs		
Wages and salaries	15.0	4.5
Social security costs	10.0	10.2
Share-based payments	1.4	7.8
	26.4	22.5

The average monthly number of persons employed by the company during the year was 9, all of whom are Directors (2013: 9).

DIRECTORS

Details of Directors' emoluments are set out in the Remuneration Report on pages 56 to 80.

PENSIONS

During the year, the Company participated in one of the Group's pension schemes, The Berkeley Group plc Group Personal Pension Plan. Further details on this scheme are set out in note 5 of the Consolidated Financial Statements. Contributions amounting to £48,150 (2013: £46,800) were paid into the defined contribution scheme during the year.

SHARE-BASED PAYMENTS

The charge to the income statement in respect of share-based payments in the year, relating to grants of shares; share options and notional shares awarded under the 2009 Long-Term Incentive Plan and the 2011 Long-Term Incentive Plan was £1.4m (2013: £7.8m). Further information on the Company's share incentive schemes are included in the Remuneration Report on pages 56 to 80 as well as note 5 to the Consolidated Financial Statements.

C4 THE BERKELEY GROUP HOLDINGS PLC PROFIT AND LOSS ACCOUNT

The profit for the year in the Company is £248.9m (2013: loss of £39.4m).

C5 INVESTMENTS

	2014 £m	2013 £m
Investments in shares of subsidiary undertaking at cost at 1 May	1,395.1	1,391.3
Additions	1.9	3.8
Investment in shares of subsidiary undertaking at cost at 30 April	1,397.0	1,395.1

Additions in the year relate to company contributions to the Berkeley Group plc for employee services to be settled through the issue of shares on the vesting of the Berkeley Group Holdings plc 2009 Part (a), 2009 Part (b) and 2011 Long Term Incentive Plan awards for the benefit of executive directors of its subsidiaries.

The directors believe that the carrying value of the investments is supported by their underlying net assets.

Details of principal subsidiaries are given within note 28 of the Consolidated Financial Statements.

Deferred tax in respect of employee share schemes credited to reserves	1.1	3.8
Realisation of deferred tax asset on vesting of employee share scheme	(3.4)	–
At 30 April	6.0	8.3

Deferred tax is calculated in full on temporary differences under the liability method using a tax rate of 21% or 20% (2013: 23%). There is no unprovided deferred tax (2013: nil).

The deferred tax asset of £6.0m relates to short-term timing differences (2013: £8.3m).

The Autumn Statement (December 2013) and the draft Finance Bill 2014 include legislation to reduce the main rate of corporation tax to 21% for the financial year commencing 1 April 2015. The charge has been substantively enacted at the balance sheet date and, therefore, has been reflected in the financial statements.
